致同学

亲爱的同学们：

你们好！欢迎大家进入新学期的英语学习！

本套教材是根据《义务教育英语课程标准（2022年版）》编写的。教材强调语言的多输入、多接触，围绕人与自我、人与社会、人与自然的主题，设定了一系列与初中阶段的学习和生活息息相关的话题，提供了丰富的题材和多样的语言实践活动。

本册教材共八个单元，每单元主体有六个部分，包括四个新授课、一个项目课和一个拓展阅读课。所有内容围绕核心素养，以英语学习活动观为指导，以语篇为依托，循序渐进。每单元以对话形式引出单元话题，结合不同的语篇，在阅读理解、逻辑思维、词汇和语法现象分析、写作、文化等方面进行探究，培养我们的语言能力和创新思维。此外，单元最后附有自我评价板块，有助于我们对本单元的学习情况进行评估和反思。

本套教材具有一定的开放性，每单元的项目课和拓展阅读课可根据情况选择，方便每个同学的个性化发展。教材还设计了“文化点滴”“学习点拨”“趣味一刻”等小板块，对课文中所涉及的文化背景、语言知识、学习方法等给予拓展、说明或指点。

本套教材选材蕴含了丰富的中华优秀传统文化，有利于我们通过中外文化对比，发展批判性思维，增强跨文化理解和跨文化沟通的能力，形成积极、健康的情感态度以及正确的世界观、人生观和价值观。

同学们，我们在英语学习中，要继续多听、多说、多读、多写、多看，主动参与，勤于思考，懂得合作，学会探究。除了课本的内容，我们也要注意接触更多的学习资源，并不断尝试用英语交流和处理问题，用英语讲述我们的文化故事。相信我们的英语学习成长之旅会更加丰富多彩！

Spring is coming!

Towards the end of this unit study, you will be able to:

- describe weather and scenes in spring;
- talk about different spring activities;
- know some Chinese solar terms for spring.

Good rain knows its time right. It will fall when comes spring.

— Du Fu

1 Planting trees

1 **Watch the video. Put the pictures in order.**

2 **Listen to the conversation and tick the items mentioned.**

Ms Liu: Good morning, everyone! Who is on weather duty today?

Wang Mei: It's me! Today is Monday, March 1. The temperature will reach 15°C by noon and drop to 2°C at night. Overall, it will be a warm, cloudy day.

Ms Liu: Well done, Wang Mei. The days are getting longer, and spring is coming. We have a school project on March 12. Can you guess what it is?

Li Ming: Is it tree planting?

Ms Liu: Good guess. Do you know how to plant trees?

Li Ming: Yes. I learned to plant trees when I visited my uncle last spring. It was so much fun.

Ms Liu: Could you tell us the steps for planting trees?

Li Ming: Sure. First, dig a large hole. Then, place the seedling inside the hole, and cover its roots with soil. Finally, press down the soil. Oh, don't forget to water the tree.

Ms Liu: Excellent, Li Ming. Why do people plant trees? Do you have any ideas?

Song Hua: Trees help protect the soil from rainfall.

Li Lin: Trees prevent dust from spreading.

Ms Liu: Good points. Planting trees is also a wonderful way to learn more about nature. I believe you will have a great time with this project.

- ☐ steps to plant trees
- ☐ a way to learn about nature
- ☐ different kinds of trees
- ☐ weather
- ☐ school project
- ☐ reasons for planting trees

3 Listen to the conversation again and answer the questions.

A What's the weather like today?

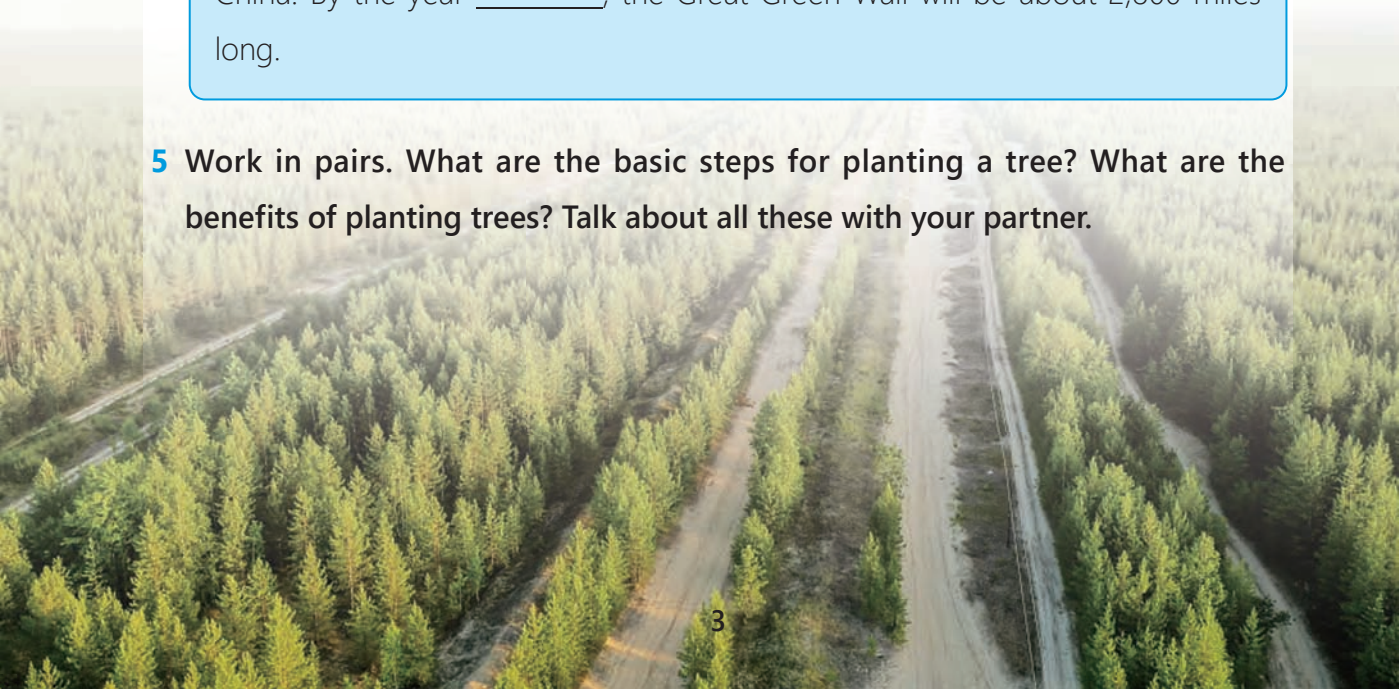

B Why does Li Ming think the project is about planting trees?

C Why do people plant trees?

4 Listen to the introduction to the Great Green Wall and fill in the blanks.

The Great Green Wall was built across the northern part of China. What is the Great Green Wall? It is made up of strips of _____ planted by humans. Each year, dust storms blow a large amount of soil off the land. The situation is becoming increasingly serious. About _____ square kilometres of grassland are being covered by the Gobi Desert every year. The Great Green Wall project started in _____. By planting more trees, people are preventing the _____ from expanding and the forest coverage is increasing in northern China. By the year _____, the Great Green Wall will be about 2,800 miles long.

5 Work in pairs. What are the basic steps for planting a tree? What are the benefits of planting trees? Talk about all these with your partner.

2 It's getting warmer!

1 Read the questions and give your answers.

A Do you like spring? Why?

B What's the weather like in spring?

2 Read the email and write true (T) or false (F).

Dear Jenny,

Today is March 6. *Jingzhe* falls on this day this year.

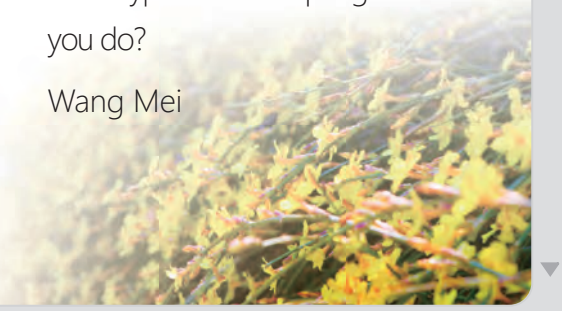

Do you know what *Jingzhe* is? It is one of China's 24 solar terms, and it means "awakening of insects". The spring thunder wakes insects up from their sleep. Then nature begins to come back to life.

Spring is in the air. This morning, the temperature was 10°C in my city. It reached 15°C this afternoon. It was quite warm. I don't need my heavy winter coat or boots now! On my way to school, I saw some winter jasmine blossoming. People believe the blossom of this flower always tells the coming of spring, so we call winter jasmine "the welcoming-spring flower".

I like spring. It is the best season for going out. We are going to be more active, like insects! We will form a music band. There is going to be a basketball game next week. My class is also planning a field trip. We will plant trees. I can't wait!

What's the weather like in Canada? What type of classic spring activities do you do?

Wang Mei

A *Jingzhe*, one of China's 24 solar terms, always falls on March 6. ( )

B During *Jingzhe*, the spring thunder wakes the sleeping insects and the weather starts getting warmer. ( )

C Wang Mei doesn't want to take part in her class field trip. ( )

3 Read the email again and complete the table.

Spring is coming!	
Solar term	*Jingzhe* falls on _____ this year. It means "awakening of insects". Then nature begins to _____.
Weather	The temperature was _____ in the morning and reached _____ in the afternoon. It was quite warm. I saw some winter jasmine blossoming.
Activity	We will form a _____, have a _____, and plan a _____.

4 Read and complete the conversation.

A. But it's still cold and snowy in my city.
B. It means "awakening of insects".
C. Toady I saw some winter jasmine.
D. We're going on a field trip.

Li Ming: Hi, Danny. Today is *Jingzhe*. Spring is in the air.

Danny: What does *Jingzhe* mean?

Li Ming: _____ Everything begins to come back to life.

Danny: Sounds interesting! What's the weather like in your city?

Li Ming: The temperature reached 15°C today. I took off my heavy winter coat.

Danny: Spring has arrived in Canada, too! _____

Li Ming: It's a bit different here. _____ We call it "the welcoming-spring flower".

Danny: Oh, it tells the coming of spring! Are you going to be active, like those awakened insects?

Li Ming: Haha. _____

Danny: That's great! Go outside and enjoy nature.

5 Work in pairs. Talk about the changes in spring and the outdoor activities you do during spring.

3 The Spring City

1 Read the questions and give your answers.

A What do you like most about spring?

B What do you know about "the spring city"?

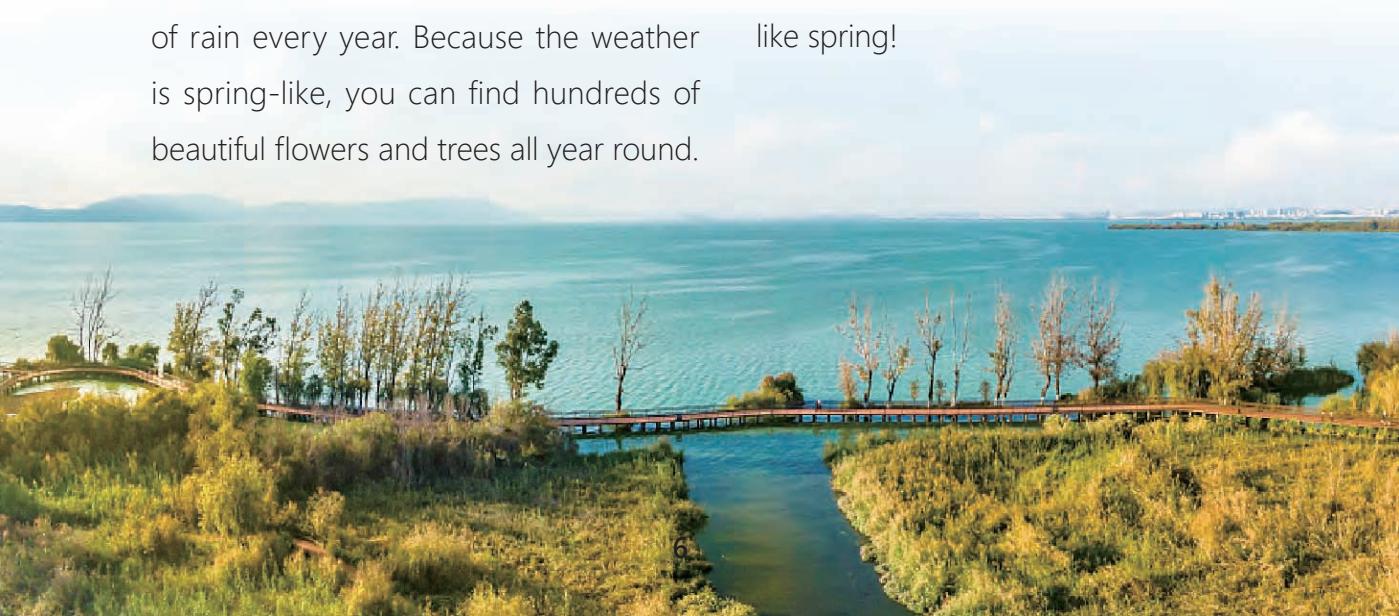

2 Read the passage and answer the questions.

When we talk about spring, we think of a season of warm weather and fresh air. We also think of new life, green plants, and budding trees all around us. Spring is short in many places around the world. But in my hometown, it feels like spring nearly all year round.

The weather here is neither too hot nor too cold. The average temperature in winter is 15°C. In summer, the average temperature is 24°C. While the sun is shining, the temperature remains pleasant. The city gets about 2,250 hours of sunshine and about 1,000 millimetres of rain every year. Because the weather is spring-like, you can find hundreds of beautiful flowers and trees all year round.

There are many famous scenic spots in my hometown. The Stone Forest is a must-see for tourists from home and abroad. There are many special rocks that look like tall stone trees. The Dianchi Lake is the biggest in Yunnan Province. You can enjoy the beauty of the area and go boating or take a walk by the water.

Can you guess the name of my hometown? Yes, it's Kunming — the Spring City. Welcome to my hometown. When you visit, you will feel our warmth and friendliness, just like spring!

A What do the rocks look like in the Stone Forest?

B Why is Kunming called the Spring City?

3 Read and pay attention to the parts in yellow. Then circle the correct words.

- When we talk about spring, we think of a season of warm weather and fresh air.
- While the sun is shining, the temperature remains pleasant.
- Because the weather is spring-like, you can find hundreds of beautiful flowers and trees all year round.

An adverbial clause is a type of dependent clause that functions as an adverb in a sentence. We use *when* and *while* to show time, and *because* to show the reason for an event.

A They didn't go to the beach today (because/but) it was raining.

B Wang Mei called me (while/because) I was writing an email.

C People eat pears (so/when) *Jingzhe* comes.

D A heavy rain fell (because/while) they were asleep.

4 Read and complete the conversation.

Susan: I'm from Australia. In my hometown, spring is warm and wet. It begins in November.

Rita: I'm from India. _____

Li Jin: I come from Yunnan, China. _____ The average spring temperature is 20°C.

Tom: I live in France. Spring begins in April and ends in June. _____

Dong Chao: I'm from Heilongjiang, China. _____

A. The temperature is between 4°C and 15°C.

B. We celebrate the Festival of Colours when spring is coming.

C. Because the average temperature is 5°C, spring is very cold.

D. The weather in my hometown is neither too hot nor too cold.

4 Stories about spring

1 Read the questions and give your answers.

A What special days do you like in spring?

B When can you see flowers bloom in your city?

2 Read the email from Jenny and answer the questions.

Dear Wang Mei,

It isn't snowing today, but there is still snow on the grass. In Edmonton, the spring weather is a little wild. It can be cold and snowy or warm and sunny. The temperature can be as low as -15°C, but it can also reach 15°C. We probably won't see any flowers until May or June!

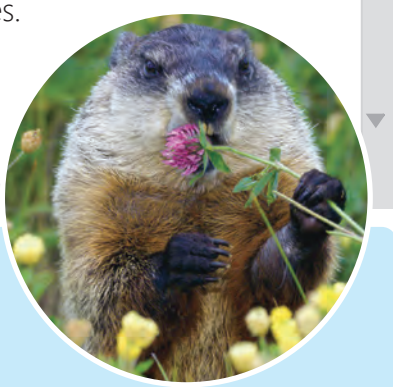

After school today, we had so much fun playing outside. We played "snow" soccer, but we had to wear jackets, jeans, and boots to stay warm. When it gets warmer, we can play in our shorts and T-shirts. I like spring because there are lots of activities to do, like cycling, having picnics, and hiking.

I like the Chinese name for winter jasmine. It's interesting. Here, we have Groundhog Day on February 2 for the coming of spring. Do you know what happens on that day?

Another fun part of spring is going to the sugar bush, a big tree farm in the countryside. We make maple syrup. We eat lots of tasty breakfast foods — all with maple syrup on them! I love spring activities.

Talk to you soon!

Jenny

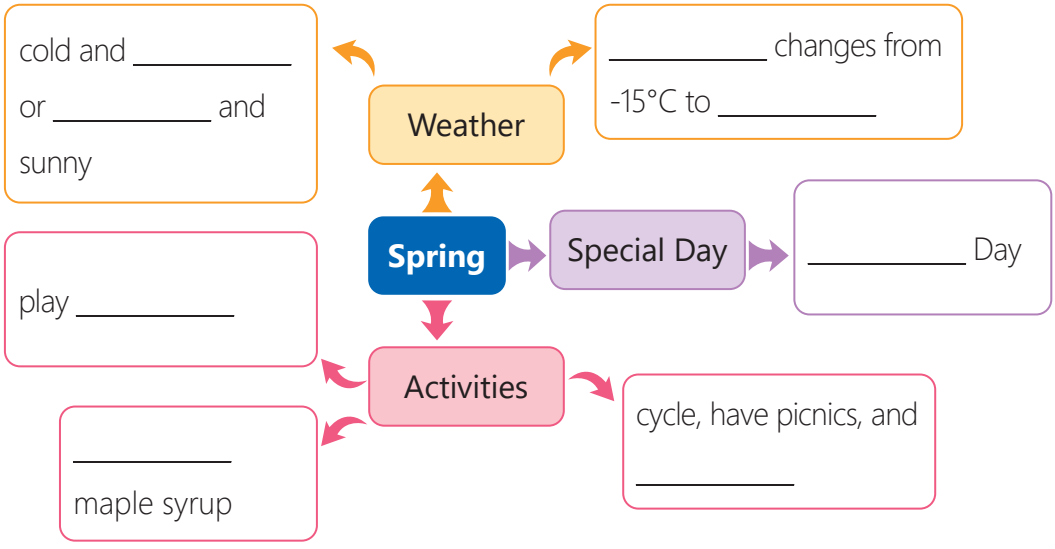

Culture Tips

Groundhog Day is on February 2. On that day, a small animal called groundhog comes out of its hole in the ground.

A Jenny says the weather in spring is a little wild. What does she mean?

B Where does maple syrup come from?

3 Read the email again and complete the mind map.

4 What activities do you like to do in spring? Tick your answers and write the reasons.

Activities	☐ have a picnic ☐ fly kites ☐ go boating ☐ enjoy the flowers ☐ go for a bike ride Other: _____
Reasons	

5 Write an email to a friend or a pen pal in another city.

The following questions may help you:

A What is the weather like in your city during spring?

B What do you usually do during spring? Why?

C Is there any special custom to welcome spring in your hometown?

5 | Jeremy's observation diary

Project

1 Read Jeremy's observation diary and label the plant.

In the life skills class last week, we learned about agriculture and plant biology. The teacher gave us some seeds so we could observe the growing process of a plant. I picked some pea seeds and planted them in a small pot. I watered them every day. I hope my peas grow quickly!

Here are some of my observations on the peas' growth:

Date: March 3

Weather conditions:
sunny, temperature around 18°C

Observations:
The pea seeds grew into buds. They look like the English letter "Y". My peas are growing quickly!

Date: March 30

Weather conditions:
cloudy, temperature around 19°C

Observations:
Now, there are long, thin stems and some leaves. At the top of the stems are little flower buds! I put the pot in the yard. There, they can get some sunshine.

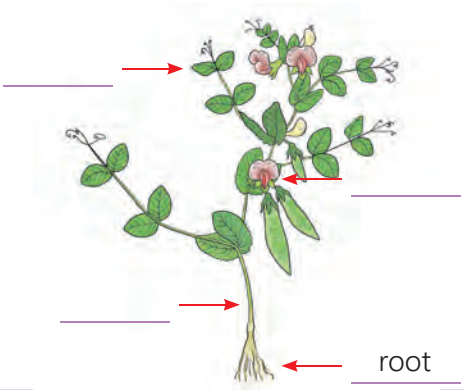

Date: April 3

Weather conditions:
rainy, temperature around 22°C

Observations:
The pea flowers are in full bloom. Some are pink and some are purple. When the pea plants grow taller, I will give them a shelf to climb on.

I know the flowers will fade and become pea pods. Growing a plant is not easy because it takes a lot of work. Farmers grow millions of plants every year to feed us. That is an amazing thing!

2 Talk with your partner about your planting experience.

- Did you ever grow a plant?
- How did you take care of it?
- What did you learn about the process of planting?

3 Work in groups. Select a plant and grow it together. Write an observation diary to record its growth.

Name of the plant: _____

Date: _____

Weather conditions:

_____

Observations:

_____

Picture of the plant

4 Two weeks later, show your plant to the class and present your observation diary. Don't forget to share the experience of growing this plant.

Understanding cultures

The 24 solar terms

1 Read the passage and answer the questions.

The 24 solar terms reflect the wisdom of our ancestors. They help us understand how nature changes throughout the year. Our ancestors observed nature and created the Chinese lunar calendar to guide farming and daily life. There are several solar terms for the spring season. They tell us about the coming of this beautiful season.

Start of Spring

It usually falls around February 4 or 5 and marks the beginning of spring. The weather starts to get warmer and we can see new plants grow and animals become active after a long winter.

Rain Water

It arrives around February 19 or 20. It reminds us of the increase in rainfall as the weather gets warmer.

Jingzhe (Awakening of Insects)

It usually takes place around March 5 or 6. *Jingzhe* tells us that insects are coming out of hibernation. We might hear more birds singing and see butterflies and bees buzzing around.

Spring Equinox

It comes around March 20 or 21, when the length of the day is nearly equal to that of the night.

Qingming (Clear and Bright)

It usually falls around April 4 or 5. *Qingming* is a time when people honour their ancestors. It's also a time to enjoy outdoor activities and the beauty of spring.

Grain Rain

It occurs around April 19 or 20. Farmers sow seeds during this time, and the rain nourishes the soil to make sure the farmers have a good harvest in the future.

These solar terms teach us how to follow the seasons and make the best of them. They show us the relationship between humans and nature and call upon us to respect the world around us.

A What are the 24 solar terms for?

B What's the difference between Rain Water and Grain Rain?

C What else do we call *Qingming*?

2 Read the passage again and complete the table.

Solar term	Chinese name	Date	Meaning
Start of Spring			
Rain Water			
Jingzhe			
Spring Equinox			
Qingming			
Grain Rain			

3 Do you know other solar terms? Share one or two with your classmates.

- It falls/occurs/takes place around...
- It tells us/It means...
- People... during this time.

4 How much do you know about the 24 solar terms? Write down the names.

Qingming Great Heat Great Cold Winter Solstice

A _____ is the coldest time of the year.

B _____ is the shortest day of the year, bringing with it the longest night.

C _____ is a time for remembering and honouring ancestors, as well as enjoying the beauty of nature.

D _____ represents the hottest day of summer.

5 Do you know how other countries celebrate natural cycles and seasonal changes? Search the internet and share your ideas with your partner.

Hills, loud with new water,
Running swiftly under ice
As clear as glass.
Flowers, tiny, brave and
Bright in the old snow.
Trees, smelling fresh with life.
Leaves opening slowly
Under the pale blue sky.
The sun, warm and golden,

Unit 2

Safety

Towards the end of this unit study, you will be able to:

- talk about safety in different cases;
- know some safety tips in daily life;
- describe an accident using the past continuous tense.

Precaution is better than cure.
— Edward Coke

1 Be careful!

1 Look at the picture on this page and answer the questions.

A What is Danny doing?

B What could happen to Danny?

2 Listen to the conversation and answer the questions.

The students are decorating the art classroom.

Danny: Look at this yellow star, Brian and Jenny! Isn't it beautiful? I'm going to hang it from the ceiling over the desk.

Brian: Here is the tape. I'll get the ladder for you.

Danny: I don't need a ladder. I think I'm tall enough.

Danny can't reach the ceiling, so he climbs onto Mr Green's chair.

Danny: Almost... Almost... Aaaaaaahhhh!

Danny falls.

Mr Green: What was that noise?!

He sees Danny lying on the floor.

Mr Green: Danny, are you okay? Are you hurt?

Danny: Hmm... My tail is a little sore, but it's not serious.

Then, they hear Brian cry for help, but his voice is very weak.

Mr Green: Brian? Where are you?

Brian: Help me, sir! I'm under Danny!

Danny: Oh no! I'm really sorry! Are you okay, Brian?

Brian: No, I'm opposite of okay. I tried to catch you, but you landed on top of me. My arm hurts.

Jenny: Should I call an ambulance?

Brian: No, that's not necessary. I don't think my arm is broken.

Mr Green: Jenny, please call Brian's mother. Tell her we are taking Brian to the hospital. He should get an X-ray just in case.

A What are the students doing?

B What does Danny climb onto?

C Who is Jenny going to call?

D What lesson do you think Danny learned from this accident?

3 Listen to the conversation again and fill in the blanks.

An accident in the art classroom

Beginning

Danny was going to _____ a star from the ceiling. He thought he was tall _____ and didn't need a ladder.

Middle

Danny fell off a chair. Brian tried to _____ Danny, but Danny _____ on top of him.

End

Danny's tail was a little _____. Brian's arm hurt, but he thought it was not _____ to call an ambulance.

Mr Green took Brian to the _____.

4 Listen to the passage and write true (T) or false (F).

Li Ming writes an email to Brian.

A Li Ming broke his leg at the age of seven. ( )

B Li Ming tried to climb a ladder, but fell down. ( )

C Li Ming's mother caught him and saved him. ( )

D It took Li Ming about 90 days to recover. ( )

5 Work in pairs. How can we keep safe in the classroom? Talk with your partner.

A: What classroom safety tips do you know?

B: It is dangerous to climb onto a desk.

...

2 Safety education

1 Read the questions and give your answers.

A What safety-related knowledge do you have?

B Do you know any first aid skills? What are they?

2 Read the diary and write true (T) or false (F).

Dear Diary,

Today is National Safety Education Day. Our school organised activities to teach us about safety.

The first part was fire safety. What should people do in case of a fire emergency? A firefighter gave us a talk and showed us videos. He said that if there is a fire, we should stay calm, find the nearest exit to go outside, and never use lifts.

We even had a fire drill! As soon as the fire alarm rang, all the students took action. We covered our mouths and noses with wet towels. We walked down the stairs calmly and in order. Our teachers guided us outside.

After the drill, the firefighter taught us how to put out a fire with water or with a fire extinguisher. We did it!

Later, we learned some first aid skills, like CPR and other basic life support training. We talked about online safety practices and where to find help in any emergency. We discussed how to stay safe in a big crowd, and what to do to avoid drowning.

The safety education activities helped us understand how to stay safe and make good choices in different situations.

Best,

Li Ming

A People can use lifts in case of fire. ( )

B During the fire drill, the students covered their mouths with their hands. ( )

C CPR was taught during the safety education training. ( )

3 Read the diary again and tick the items mentioned.

A What did the students learn on National Safety Education Day?

☐ fire safety ☐ first aid skills ☐ online safety

B What steps are included in a fire drill?

☐ rushing to the lift ☐ finding the nearest exit

☐ covering mouths and noses with wet towels

C What can we use to put out a fire?

☐ water ☐ clothes ☐ fire extinguisher

4 Complete the safety tips with the expressions.

in case of stay calm in order stay safe be prepared to

- **Fire safety:** If there is a fire, _____, find the nearest exit, and never use lifts.
- **First aid:** _____ help someone by learning basic life support techniques like CPR.
- **Online safety:** Don't share personal information and find help _____ emergency.
- _____ **in a big crowd:** Don't stay in crowded places. If an accident happens, get away from the crowd _____.
- **Avoid drowning:** Never swim alone in the river and always follow the instructions of lifeguards.

5 If you live on a high floor and there is a fire at home, what should you do? Discuss with your classmates.

3 My helmet saved my life!

1 Read the questions and give your answers.

A Do you wear a helmet when you ride a bicycle? Why?

B How do you understand the sentence "You can never be too careful."?

2 Read the passage and write true (T) or false (F).

It was a beautiful noon. I was riding my bicycle by the river, thinking about yesterday's baseball game. I guess I rode over a hole in the road. All of a sudden, WHAM! I went down hard on my right side. That really hurt!

My head hit the ground. I lay there for a few minutes. I tried to get up, but I couldn't! "There's something wrong with me," I thought. I felt so terrible that I lay down again. Then I saw blood on my shoe. My hand and knee were bleeding. I was in a lot of pain.

As I lay there, I took off my helmet. There was a sharp rock sticking out of it. It was pretty scary to look at. Thank goodness I wore my helmet! I shouted for help. A driver stopped his truck and came to help me. He put my bike in the back of his truck and drove me to the hospital.

When my mother got to the hospital, she gave me a big hug and kiss. "You were wearing your helmet this time. How lucky you were!" she said. She knew I was careless and did not always wear my helmet.

But I'll never be careless again... My bicycle helmet saved my life!

A The author was riding her bicycle when she fell. ( )

B The author hurt her foot and knee. ( )

C A truck driver helped her and drove her home. ( )

3 Read the sentences and pay attention to the parts in yellow. Then fill in the blanks with the correct forms of the verbs.

- I was riding my bicycle by the river.
- My hand and knee were bleeding.

We use the past continuous tense to talk about actions that were in progress at a certain time or over a period in the past. The structure: *was/were+v-ing*

A He was running (run) and suddenly felt a pain in his knee.

B They _____ (play) volleyball at ten o'clock yesterday morning.

C I _____ (talk) with my friend at that time.

D The basketball hit me while I _____ (watch) a bird.

4 Read and complete the conversation. Think about who took Mary Sheep's baby.

Mary Sheep can't find her baby. Monkey is helping her look for the baby in the forest.

What were you doing between 9:30 and 10:00 last night?

Well, we had a birthday party for Panda last night. I _____ (talk) to Fox at that time. We were also helping Panda clean the room.

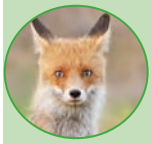

Let me think. I went to Panda's party at 7:00 and I left at 9:30. Between 9:30 and 10:00, I _____ (take) a walk with Fox.

I _____ (clean) my house at that time. Yesterday was my birthday. Lots of friends came to my home. Most of them left at 9:30. But Tiger and Fox stayed late and helped me.

I was at Panda's home with Tiger. We _____ (help) Panda while we were talking. At about 10:00, I left the party. On my way home, I met Wolf and we went for a walk together.

4 An accident on the street

1 Read the questions and give your answers.

A What do you need to do when you cross the street?

B What should you do when you see someone badly hurt in an accident?

2 Read the news and put the sentences in order.

An accident on the street

Northern News, December 7 Girl, 13, Hit by Car

NORTH TOWN, Alberta. Thirteen-year-old Ann Brown was hit by a car outside North Town Primary School at 15 Park Road. The accident happened at about 7:30 a.m. She and her brother, James, were on their way to an early basketball practice.

"We were in a hurry," James told the reporter. "We didn't want to be late for practice. Ann's basketball rolled onto the street. She raced to get it."

Mrs Andrews, a chemistry teacher from Green Wood School, was walking several steps behind the two students. She saw it happen. "I don't know whose fault it was," Mrs Andrews said. "The girl didn't see the car. And the street was icy — the car couldn't stop in time. It was terrible."

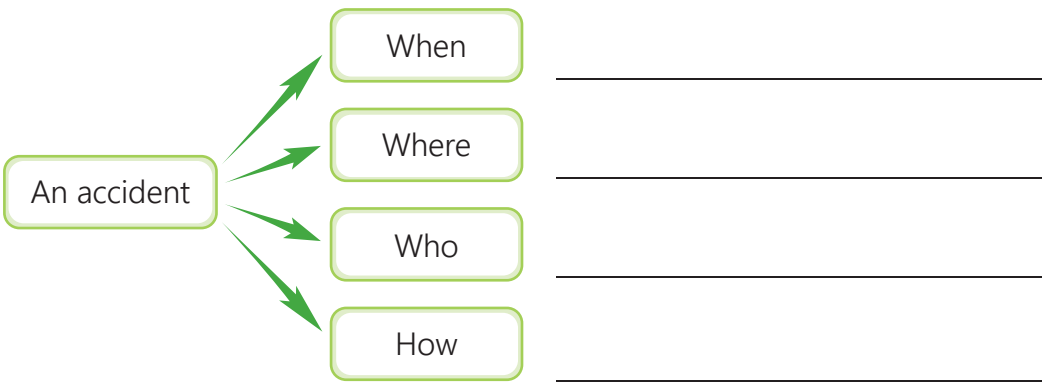

Mrs Andrews said, "I shouted to the girl. I wanted to stop her from running after the ball, but she didn't hear me." After the accident, the car stopped, and the driver, Bill Morin, jumped out. He called an ambulance.

Mr Morin knows first aid. He did not move Ann. He stopped traffic on the road until the ambulance came. Then the ambulance took both students to the hospital. Both kids were in shock.

Ann has a broken leg and a bad shoulder wound. She is recovering in the hospital. Doctors say she can expect to return to school in about a week.

( ) The driver, Bill Morin, called an ambulance.
( ) Ann dropped her basketball and raced to get it in the street.
( ) Ann and James were on their way to an early basketball practice.
( ) Mrs Andrews shouted to the girl to stop her, but she didn't hear.
( ) The ambulance took both students to the hospital.
( ) Mr Morin stopped traffic on the road until the ambulance came.
( ) Ann was hit by a car because the car couldn't stop in time on the icy street.

3 Read the news again and complete the mind map.

4 Suppose you are Ann. Briefly explain the accident to the class.

One week later, Ann returned to school after recovering in hospital. She shared her experience.

That day, I was walking on the street with my brother. _____

5 What can you learn from the accident? Talk with your partner.

5 Home safety

Project

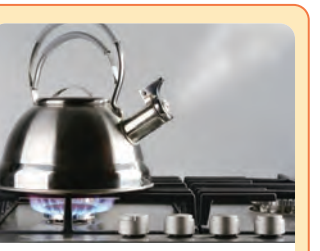

1 Read the passage and complete the table.

Many serious accidents happen in people's homes. The kitchen and the bathroom are the two most dangerous places in the house.

Can people prevent certain accidents? Yes. Many accidents happen because people are careless. So be careful!

Safety tips in the kitchen

- Be careful with fire and boiling water when you cook.
- Have fire blankets, fire extinguishers, smoke alarms, and flashlights near the kitchen.
- Always turn off the oven or stove after use. In case of a gas leak, do not use a cell phone or any electric item. Immediately turn off the stove and quickly open a window. Move to a safe area to inform emergency services and the gas company.

Some things catch fire easily. Don't put them near the stove!

Safety tips in the bathroom

- Never use electricity in the shower or bathtub. It can shock you!
- Be sure to keep the bathroom floor dry after you take a shower or bath. It's easy to slip and fall on a wet floor.
- Turn on the cold water first when taking a bath. Then adjust the hot water to ensure a safe water temperature. Hot water can burn you.

Accidents happen suddenly. Never leave small children alone in a bathtub.

Home safety focuses on preventing accidents and reacting well to dangers in order to protect the safety of the family.

2 Work in pairs. What should you do to stay safe at home? Tick the correct choices and give more tips for home safety.

- ☐ keep paper or cloth away from the cooker
- ☐ set a timer to remind you when food is ready
- ☐ open the window when there is a gas leak
- ☐ throw water over a pan that catches fire
- ☐ put metal items in a microwave

More home safety tips: _____

_____

3 What should you do or not do to stay safe in different places? Discuss with your partner.

- on the way to school
- in the classroom
- on the playground
- in the lift

4 Make a safety poster with your group members.

A Choose a theme. It can be, for example, on a bus, in a fitness centre, or in a lab. What kind of dangers could occur there?

B Search for more safety information online and share it with the group. How can you protect yourself from those dangers?

C Write down the safety tips and make your poster look nice.

5 Make an exhibition and present your poster to the class.

Being cybersafe

1 Read the passage and write true (T) or false (F).

Technology can be good or bad. That's why learning to be cybersafe is so important! Never give out private information online. Question the information you read.

Personal information

Most of us have our names and photos on social media. But without the right privacy settings, they can be used by dangerous people. Everything you post or send online could be taken and used against your will. And once it's online, it's nearly impossible to get rid of it completely! Also be careful of what others send you. If you click a link or open an attachment, it can be something dangerous for your computer, like a virus.

Misinformation

The internet era makes gathering information easy. But you must consider the source of the information you are reading. Who published it, a stranger or an expert in the field? What website is it on, a blog or a government resource? Does it offer different views? Is it meant to inform you, or simply get a quick reaction?

Cyberbullying

You probably know that cyberbullying is bullying, but online. Sending hurtful messages, spreading lies about someone, sharing their private photos... these are easy to do, but they have a huge impact on the victim. The best way to deal with cyberbullying is to ignore, block, and delete. Telling a trusted adult is also important, especially if someone is threatening you.

Be kind to others. Be careful with your information. Think critically about everything you see online. This will ensure you are cybersafe!

A Once your private information is online, you can get rid of it completely and easily. ( )

B We should be careful when we want to click a link or open an attachment. ( )

C We must consider the source of the information we are reading. ( )

2 Read the passage again and tick the tips on how to be cybersafe.

( ) Never give out private information online.

( ) Be careful with your information.

( ) Trust any information you read.

( ) Be careful of what others send you.

( ) Consider the source of the information you are reading.

( ) Send hurtful messages and share others' private photos.

3 Read and complete the conversation.

Bob: The internet era makes gathering information easy.

Tim: Exactly. But it also brings some problems.

Bob: I agree. _____

Tim: Of course. Some people use the internet to harm others.

Bob: That's true. Someone tried to cyberbully me.

Tim: Really? _____

Bob: I ignored and deleted the hurtful information. Then I blocked the person and told my father about it.

Tim: What do you do to be cybersafe now?

Bob: _____

Tim: Technology can be good or bad. _____

A. I never give out private information online.

B. How did you deal with that?

C. We should think critically about everything online.

D. Do you think learning to be cybersafe is important?

4 Work in groups. Talk about what you do in your daily life to be cybersafe.

Unit 3

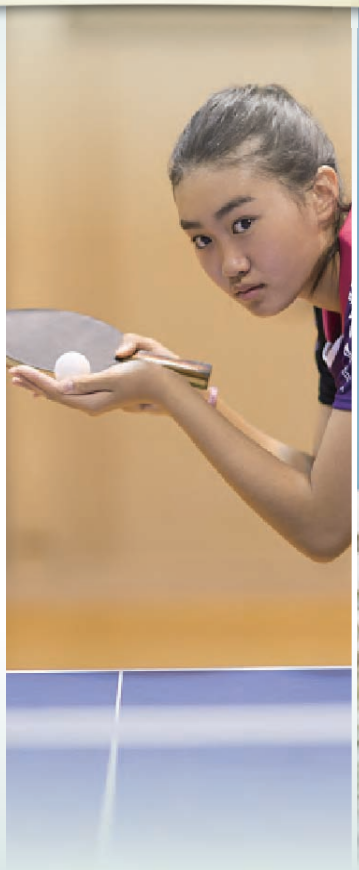

Amazing sports

Towards the end of this unit study, you will be able to:

- talk about sports and games;
- understand the importance of courage, spirit, and teamwork;
- describe an athlete or a sports team you like;
- use the present perfect tense to describe sports.

A sound mind is in a sound body.
— German proverb

1 What's your favourite sport?

1 Watch the video and tick a proper title for it.

- ☐ Sports are good for our health
- ☐ What sports teach us
- ☐ How to become an athlete

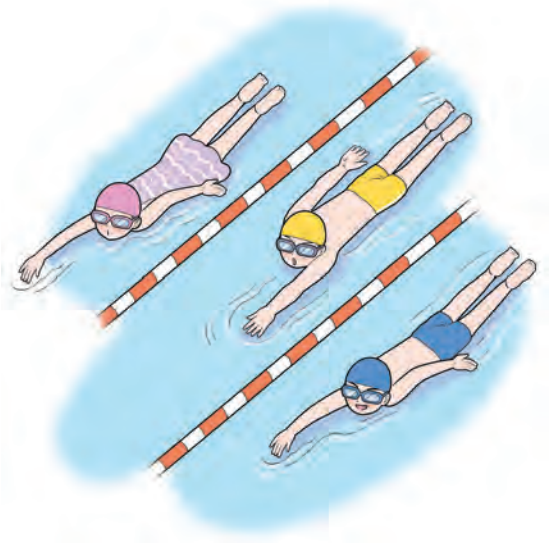

2 Listen to the conversation and complete the table.

Li Ming and Song Hua are talking about sports on the playground.

Li Ming: What's your favourite sport, Song Hua?

Song Hua: Hmm... I like basketball, but I think swimming is my favourite. I feel free when I'm in the water. I started learning to swim at the age of five, and I still go to the pool every Saturday evening.

Li Ming: That sounds great! What are some benefits of swimming?

Song Hua: Swimming helps me stay in shape, improves my endurance, and reduces my stress. After swimming, I always feel refreshed. How about you, Li Ming? What's your favourite sport?

Li Ming: For me, it's ping-pong. It improves my motor skills and my hand-eye coordination. I practice it at the sports centre on weekends, and I have made some friends there. We all love ping-pong and have a lot of fun together.

Song Hua: Sports help us improve our physical abilities, learn new skills, overcome challenges, and build confidence.

Li Ming: Well said! Look! There is a basketball game going on. Let's go and cheer them!

2 National sport

1 Read the questions and give your answers.

A Is ping-pong a popular sport in your neighbourhood?

B What do you know about ping-pong?

2 Read the passage and answer the questions.

Ping-pong, also known as table tennis, holds a special place in Chinese people's hearts. It shows our love for sports and the spirit of never giving up. It inspires young athletes and brings joy and a feeling of community to every player.

Ping-pong has deep historical roots in China. The game became popular in the early 20th century. Now, people of all ages play this sport in gyms, parks, community centres, and even at home.

Ping-pong is a fast-paced sport. It can improve your overall physical fitness. Ping-pong uses both the left and right sides of the brain. So it can also improve your memory and problem-solving skills. What a fun national sport!

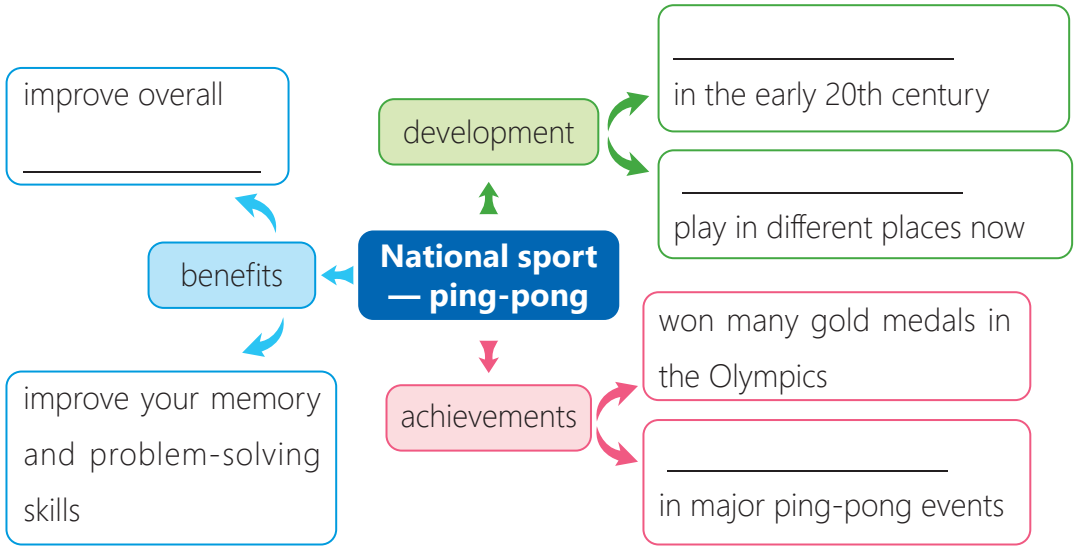

Since ping-pong entered the Olympics in 1988, the Chinese ping-pong team has won many gold medals. The team has also had many great victories in major ping-pong events, such as the World Championship and the World Cup. The achievements of Chinese players on the global stage have inspired many people.

Ping-pong has already become an important part of our culture. The game serves as exercise and as a way for people to connect with others. Don't wait! Go play ping-pong with your friends.

A What can we get from playing ping-pong?
B How does ping-pong improve our memory?
C When did ping-pong become an Olympic sport?

3 Read the passage again and complete the mind map.

4 Complete the passage with the correct forms of the phrases.

give up hold a special place stay healthy

Hello, I'm Wang Yu. My favourite sport is ping-pong. It _____ in my heart. Playing ping-pong helps me _____. The quick movements keep me active. But there is more to the sport than just enjoyment. Athletes never _____, no matter how challenging a game is. It inspires me to hold on when I face difficulties.

5 Play a game. Act out a sport without saying any words and ask your partner to guess what it is.

3 Dream team

1 Read the questions and give your answers.

A Which sports team do you like best? Why?

B What is the most important part of a team?

2 Read the passage and answer the questions.

At the 1992 Olympics, the US basketball team won the gold medal. People called it the dream team. Nowadays a dream team refers to the greatest team in its field. There have been many dream teams throughout the history of sports. Canada's dream team plays on ice — it's the country's ice hockey team. For Brazil, it might be the men's volleyball or soccer team.

What is China's dream team? Many people would think of the diving team. China also has dream teams in ping-pong and weight lifting. Time after time, these teams have won gold medals for China.

However, there is more to a dream team than winning gold medals. A dream team has not only the best players and the best coach, but also the best team spirit. All of the players must work hard and cooperate with one another. By working together, they show their courage and their drive. They never give up. That's what makes a dream team!

The spirit of a dream team influences lots of people everywhere, not only in their home nation. People admire and feel proud of their dream team.

A What is the dream team of the US?

B Is the diving team China's only dream team?

C What does a dream team have?

D How can players perform better?

3 Read the sentences and pay attention to the parts in yellow. Then fill in the blanks with the correct forms of the verbs.

- There have been many dream teams throughout the history of sports.
- Time after time, these teams have won gold medals for China.

We use the present perfect tense to talk about an action in the past with a result now. We can also use it when we talk about an action lasting from the past time till now.

A We are pleased the players have solved (solve) the problems after a month's hard work.

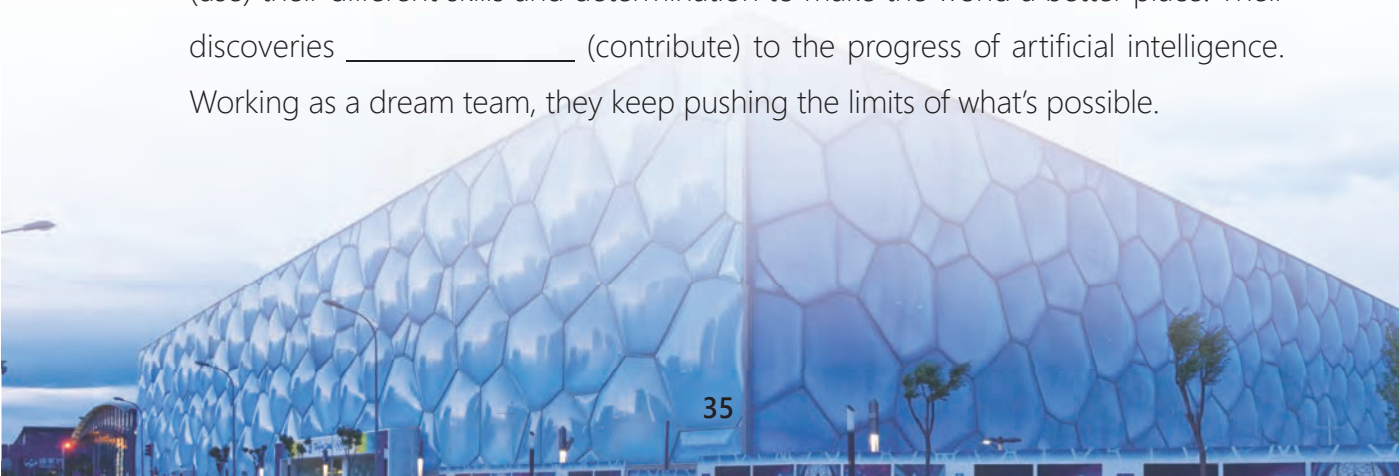

B He _____ (be) a basketball player since 2021.

C Mr Brown _____ (serve) as a doctor in that team for many years and now he is ready to retire.

D The words of her coach _____ (influence) her on her way to success.

4 Read and complete the passage.

In the last few years, we _____ (make) much progress in the areas of technology and innovation. Groups of scientists and inventors _____ (use) their different skills and determination to make the world a better place. Their discoveries _____ (contribute) to the progress of artificial intelligence. Working as a dream team, they keep pushing the limits of what's possible.

4 Never giving up

1 What qualities do you think the Chinese women's volleyball team has? Talk with your partner.

2 Read the passage and answer the questions.

I'm a huge fan of the Chinese women's volleyball team. I have watched nearly all of their games and have often found myself cheering or shedding tears with the players during these matches. Throughout the years, I have seen this team win many championships and bring glory and pride to our nation.

What makes the Chinese women's volleyball team special? It is their determination, teamwork, and spirit. No matter how tough things get, they never give up. When a player misses a shot, the teammates don't blame her. Instead, they come together and offer words of encouragement. They support each other and create a positive and exciting atmosphere on the court. Whether they win or lose, they stay united as a team. The coach, Lang Ping, once said, "Volleyball is not just a job; it is our whole life." And the team members truly live by that.

The team's spirit has had a strong influence on me. When I come across difficulty or challenge, their never-give-up spirit always motivates me to keep trying. The team has taught me to do my best in everything. I have also learned the value of teamwork from them. Working with others and supporting each other can lead to amazing achievements.

A How do the teammates support one another on the court?

B What important lessons has the author learned from this team?

The spirit of the Chinese women's volleyball team is country first, working together, fighting hard, and never giving up.

3 Read the passage again. Write the main idea of each paragraph and choose the correct supporting sentences.

Paragraph	Main idea	Supporting sentences
1		
2		
3		

A I have also learned the value of teamwork from them.

B No matter how tough things get, they never give up.

C When I come across difficulty or challenge, their never-give-up spirit always motivates me to keep trying.

D I have watched nearly all of their games.

E Whether they win or lose, they stay united as a team.

F I have often found myself cheering or shedding tears with the players.

4 Write about an athlete or a sports team you like.

The following questions may help you:

A When and how did you learn about him/her/it?

B What prizes or awards has he/she/it won?

C What outstanding qualities do you think he/she/it has?

D How has he/she/it influenced you?

5 | Classroom Olympics

Project

1 Read the email and answer the questions.

Dear Wang Mei,

We had our own classroom Olympics this week! Our class had five different events — jump rope, long jump, sit-ups, push-ups, and "ping-pong pass". Everyone competed in each event, one by one.

The events were fun! Kim won first place in the jump rope event. She jumped 178 times in one minute without stopping. Lisa won second place in the long jump. She jumped very far, but Kim jumped farther.

My favourite event was "ping-pong pass". Each student had to balance a ping-pong ball with chopsticks and move it from one basket to another without dropping it. We used a stopwatch to see who was the fastest. You know what? I can use chopsticks very well. Tom did his best, but his ping-pong ball kept falling off his chopsticks.

What were the results? I won the race! David was only two seconds slower than me. It's really enjoyable to do sports with friends! I like classroom Olympics. What about you?

Jenny

A What were the five events Jenny's class Olympics had?

B Did Kim win first place in both rope skipping and long jump?

2 Read the table. Circle the first place of each event and discuss with your partner.

Classroom Olympics					
Event / Name	jump rope	long jump	sit-ups (girls)	push-ups (boys)	ping-pong pass
Jenny	176/min	1.87 m	49/min	—	23 sec
Lisa	176/min	1.97 m	45/min	—	31 sec
Kim	178/min	2.01 m	45/min	—	30 sec
David	175/min	1.93 m	—	40/min	25 sec
Tom	170/min	1.95 m	—	35/min	40 sec

- Who won second place in ping-pong pass?
- Who jumped rope the most in a minute?

3 Work in groups. Design a classroom Olympics plan and discuss it.

- What events would you like to include?
- What are the rules?
- What do you need to prepare?

The Olympic Games

1 Read the passage and write true (T) or false (F).

The Olympic Games were an ancient athletic festival in Greece. Among the games held throughout Greece, the Olympic Games were the most famous. They were held every four years.

The modern Olympic Games became popular in the late 19th century. In 1892, at a meeting in Paris, Pierre de Coubertin put forward the idea of holding Olympic Games again. In 1894, the International Olympic Committee (IOC) was founded.

Modern Olympic Games include the Summer Olympics and the Winter Olympics. The first modern Olympic Games were held in Athens, Greece, in 1896, while the first Winter Olympics were held in Chamonix, France, in 1924. Since 1994, the Olympic Games have alternated between a summer and a winter edition every two years.

In 2008, Beijing became the first Chinese city to host the Games. Do you remember the slogan "One World, One Dream"? The song *You and Me* touched many people's hearts. In 2022, Beijing hosted the Winter Olympic Games. It became the first city in the world to host both the Summer and the Winter Olympic Games.

The Olympic flag has a white background with five interlaced rings in blue, yellow, black, green, and red. These rings symbolise the unity of the continents. The motto of the Olympic Games is "Faster, Higher, Stronger — Together".

A The Olympic Games originated in Greece. ( )

B Beijing was the first city to host both the Summer and the Winter Olympic Games in the world. ( )

2 Read the passage again and answer the questions.

A Which city was the first to hold the modern Olympic Games?

B What was the slogan of the 2008 Beijing Olympic Games?

C What are the colours of the Olympic flag? What do they represent?

3 Since 1984, each host city of the Olympic Games has invented a slogan to show its Olympic spirit and express the common wishes of all the people in the world. Search the internet for more information and complete the table.

Year	2008	2012	2016	2021	2024
Host city	Beijing	_____	_____	Tokyo	_____

Unit 4

Rules make for a better life!

Towards the end of this unit study, you will be able to:

- talk about public rules;
- know some basic traffic laws;
- understand the importance of personal space.

Nothing can be accomplished without norms or standards.

— Chinese proverb

1 Signs in public places

1 Watch the video and answer the questions.

A What rules should Ryan follow every day?

B What happened during the "No Rules Day"?

C What did Ryan realise after the "No Rules Day"?

2 Listen to the conversation and complete the table.

Brian: Hey look, there's a sign on the wall. It says, "No cameras or mobile phones!"

Danny: Why do they have this sign at the entrance of the cinema?

Jenny: Well, I think it's likely to prevent people from taking pictures or recording the movies.

Brian: Ah, that makes sense. It's important to respect the copyright laws that protect the movie industry. That's also why you can't download certain movies online!

Jenny: Have you noticed any other signs in public places?

Danny: Yes, I remember seeing a sign in the library. It said, "Silence is golden."

Brian: I've seen that one too. It reminds us to be quiet and considerate of others.

Danny: And what about in parks? Have you seen any signs?

Jenny: Yes, I saw a sign at a national park that said, "Leave nothing but footprints."

Brian: It encourages people to keep the park clean and not to leave any rubbish behind.

Jenny: Signs in public places play an important role in promoting social rules and working for the common good.

Danny: Agreed. Let's always follow the rules and be good citizens. Now, let's go enjoy the movie!

Public place	Public sign	Purpose
at the cinema	No cameras or _____!	to respect the copyright _____ that protect the movie industry
_____	_____ is golden.	to remind people to be _____ and considerate of others
_____	Leave _____ but footprints.	to _____ the park clean and not to leave any _____ behind

3 Listen to the dialogue and write true (T) or false (F).

Jenny and Lucy are talking about the signs in their school.

A There is a sign near the entrance that says, "Dream big, work hard". ( )

B The sign "Eat healthy, stay strong" promotes the importance of healthy eating. ( )

C The sign "Creativity has no limits" is in the science lab. ( )

D The signs in the school help guide students' behaviour. ( )

E Both Jenny and Lucy have a positive attitude towards these school signs. ( )

4 Look at the signs and discuss with your partner.

The following questions may help you:

A What do these public signs mean?

B Where can we see these signs?

C What other signs have you noticed in public places?

2 Traffic laws help!

1 Do you know these traffic signs? What do they mean?

2 Read the passage and write true (T) or false (F).

Traffic laws are used to regulate the behaviour of drivers, pedestrians, and cyclists. Here are some key points about traffic laws.

Drivers must follow traffic laws on the street. As a driver, you must therefore pay attention to traffic lights and other signals on the road. When you are planning to change lanes or make a turn, use your car's turn signals. Every driver and passenger in the car should wear a seat belt. It can protect you and others in case of sudden stops or accidents.

As pedestrians, you should walk on the zebra crossings when crossing the street. You are only allowed to go when there is a green light and you must stop at red lights. When you're crossing the road, don't check your phone.

When you are cycling on the road, keep to the right or left according to traffic laws. Always wear a helmet when you ride an e-bike. If you fall or get hit, the helmet will protect your head. When making a turn or a stop, use suitable hand signals to let others know what you are going to do.

These laws can help keep us safe and prevent accidents.

A Traffic laws regulate how people should behave on the street. ( )

B Seat belts can protect us in case of sudden stops or accidents. ( )

C Cyclists should always keep to the right side. ( )

3 Read the passage again and complete the table.

Road users	What to do
Drivers	_____ and other signals
	_____ when changing lanes or making a turn
	_____ for their own safety
Pedestrians	_____ when crossing the street
	go at a green light and _____
	_____ when crossing the road
Cyclists	keep to the right or left according to traffic laws
	_____ when riding an e-bike
	_____ when making a turn or a stop

4 Read and complete the story.

A. You should not check your phone when crossing the road
B. Later, I persuaded a man to wear a helmet when he was riding an e-bike
C. Pedestrians and cyclists stop beyond the stop line at a red light
D. Following traffic laws can keep us safe

Today, I volunteered for traffic duty. Under the guidance of the police, I stood at the intersection to begin my work. Most people follow traffic rules. _____. However, I saw a boy texting while he was crossing the road. "That's dangerous. _____", I said. The boy looked up from his phone in surprise. Then he realised he was wrong and said sorry. _____. Today I was tired but felt fulfilled. I want to tell everyone: _____.

5 Work in pairs. Talk about the questions with your partner.

A What should we do when we ride or walk on the street?

B If you see anyone who doesn't follow traffic rules, what will you do?

3 Spoken and unspoken rules

1 **What are spoken and unspoken rules? Talk with your partner.**

2 **Read the passage and discuss the statements listed below. Are they spoken or unspoken rules?**

Spoken rules are said or written somewhere. You might find spoken rules in school, public buildings, at home, or on the road.

Think of school rules. Are you allowed to run around and yell in the hallways? Are you allowed to insult others and cheat on tests? No! Think of rules in a public place, like a library or a park. Can you talk loudly in a library? Can you climb on a park statue? No! At home, your parents might have clear rules like "no throwing basketballs in the house". And on the road, you are required to follow traffic rules. That can keep yourself and others safe.

Unspoken rules are mostly to do with respecting others. This type of rule is different between countries and cultures!

You should recognise and follow the rules in your own country. When you plan to visit another country, you should find out the differences to avoid being disrespectful. For example, in some western countries, people don't stand too close during a conversation. But, in many other countries, closeness is considered normal. In some places, keeping more distance is seen as rude. All these ways are acceptable. It depends on where in the world you are!

A Don't climb on a park statue.

B Hold the door open for others.

C Cover your mouth when you cough.

D No throwing basketballs in the house.

E Don't make a lot of noise late at night.

F Get on a bus or a train after others get off.

3 Read the sentences and pay attention to the parts in yellow.

- Spoken rules are said or written somewhere.
- But, in many other countries, closeness is considered normal.

When we do not know who does the thing, or when this information is not important, we use passive voice. The structure: *am/is/are +v-ed*

Read and rewrite the sentences:

A People in society follow spoken rules.

➡ Spoken rules are followed by people in society.

B Cultures influence unspoken rules.

➡ _____

C She recognised her mother's handwriting on the envelope.

➡ _____

D We clean our classroom carefully every day.

➡ _____

4 Read and complete the conversation.

Li Ming: _____ spoken rules always _____ (follow)?

Wang Mei: Well, not necessarily. Sometimes spoken rules _____ (overlook) or _____ (ignore).

Li Ming: What about unspoken rules then?

Wang Mei: Unspoken rules _____ often _____ (take) for granted.

Li Ming: Can you give me an example?

Wang Mei: Sure. Think of a library. It is a spoken rule to keep quiet, but sometimes people still talk. However, the unspoken rule is to turn off your phone and avoid making any unnecessary noise to disturb others.

Li Ming: I see. Unspoken rules _____ (not write) down. They are different between cultures and locations.

Wang Mei: Yes. Both spoken and unspoken rules can shape our behaviour.

4 Personal boundaries

1 Do you accept these actions? What do you think of them? Talk with your partner.

A Your friend takes your things without asking.

B Your friends share your personal stories without consent.

C Your parents read your diary or notes without your permission.

2 Read the passage and write true (T) or false (F).

"Stop it!" says Jenny, stepping away from Danny. "I have asked you to stop pulling my hair three times already!"

"I'm just playing," laughs Danny.

Just then, Mr Dino walks over. He asks Jenny if everything is okay. Jenny shakes her head and looks away, hiding her hair under her hood. "Danny, your friend is setting a boundary. You need to respect it!" warns Mr Dino.

"A what?" says Danny.

"A boundary," says Mr Dino. He goes on to explain, "A boundary is a rule we set for ourselves. It helps us feel safe and respected. Do you remember when Uncle Dino wanted to give you a hug, but you didn't want one? You told him, 'Not this time.' You set a personal boundary. Jenny is doing the same thing."

Mr Dino adds, "Listening to others' boundaries shows respect and makes them feel they can trust you. Boundaries teach you to notice when someone might be dangerous." Danny nods and says, "I get it." Then, he turns to Jenny, "I was not paying attention to your feelings. I am so sorry for what I did!"

"That's okay, Danny," smiles Jenny. "Just keep working on it!"

A Jenny became annoyed at Danny's behaviour of pulling her hair. ( )

B Later, Danny understood the concept of a personal boundary. ( )

C Personal boundaries are rules others set for you. ( )

3 Read the passage again and retell the story to your partner.

cause	process	result
Danny pulled Jenny's hair three times. Jenny...	Mr Dino explained what boundaries were, and...	Danny learned the importance of boundaries, and he...

4 Here are some rules for personal boundaries. Match the terms on the left with the rules on the right. Write other aspects if you know any.

personal space	Don't let others' emotions ruin your day.
personal belongings	Balance your schedule and don't let others take up too much of your time.
your time	Feel free to say no when someone asks to borrow your things.
your feelings	Don't get too close or touch people without permission.

Other: _____

5 Write about a problem related to personal boundaries that you or someone else experienced.

The following questions may help you:

A When did it happen?

B Where did it happen?

C What were the cause, process, and result of this matter?

D What have you learned from it?

5 Public rules

1 Read the passage and answer the questions.

Following public rules and regulations is an important part of living in a society. What happens when people don't follow public rules? Here are some cases.

Case 1: Cutting in line

Cutting in line is often considered an annoying behaviour that creates a sense of impatience. It breaks social fairness and is rude. It can lead to arguments and even fights.

Case 2: Spreading rumours

Have you ever met someone who spreads rumours? Whether in person or on the internet, spreading false or negative information is disrespectful to others or even illegal. This behaviour can damage other's reputation. We should never spread rumours without finding out the truth. It only causes trouble.

Case 3: Littering

Littering is a very bad behaviour. When people litter, not only the environment but also the health and safety of others are affected. It is everyone's responsibility to protect the planet. Don't be the one to make a mess!

Following public rules protects the people and the world around us. It's important for us to understand and keep the rules of our society.

A How does spreading rumours affect others?

B Why is littering considered a bad behaviour?

C Do you think it is important to follow public rules? Why?

2 What will you do if you see someone cutting in line? Discuss with your partner and give some advice.

A: Will you tell him/her not to do it? Why?

B: Yes, because...

A: How will you stop him/her?

B: I will say...

Useful expressions

- Could/Would you please...?
- It's impolite/rude to...
- Thanks./Many thanks./Thanks for...

3 Work in groups. Write a proposal for the students to follow social rules in your school.

Dear classmates,

Civilization is the name card of a city. It is everyone's responsibility to obey the laws and rules.

We hope that:

_____

_____

_____

Let's follow the public rules and make our society better!

4 Present your work to the class. Vote for the most popular suggestion letters and post them in the school.

Funny international laws

1 Read the passage and answer the questions.

You may want to remember these strange laws next time you're travelling to avoid fines!

Don't eat on church steps in Italy.

Be careful where you enjoy a relaxing lunch or drink in Italy. It's an offense in Florence to eat or drink on church steps or within a church yard. The same law applies to eating near public buildings or institutions. Find other places to avoid the fine.

Watch your camera in Kazakhstan.

Want to take a picture of your family in the airport before you board the plane? In Kazakhstan, it's against the law. Photographing in and around airports is not allowed, and taking pictures of military and official buildings is not allowed either.

Feed the pigeons and you'll break the law in San Francisco.

You're not allowed to feed pigeons on the streets of San Francisco. The

city doesn't like the birds because they spread diseases and damage properties. If you're seen giving food to San Francisco's pigeons, you could be punished with a fine.

Pack a breathalyzer in France.

In France, drivers must carry a small breathalyzer in their vehicle. If you're caught without one in your car, you may be fined. So next time you are in France, don't forget to have a breathalyzer in the car with you.

A Can we eat lunch in front of a museum in Florence? Why?

B Can a camera be used in and around airports in Kazakhstan?

C Why is feeding pigeons not allowed in San Francisco?

D Why do you think drivers without a breathalyzer in the car may be fined in France?

2 Read the passage again and fill in the table.

Country/City	Funny laws

3 There are many "funny" laws in the world. Search the internet and write true (T) or false (F).

( ) It's legal to take selfies with Buddha in Sri Lanka.

( ) It's illegal to dance in the dark after midnight in Japan.

( ) It's illegal to fly a kite in Victoria, Australia.

( ) It's illegal to climb a tree in Toronto, Canada.

( ) You are not allowed to build a sandcastle in Spain.

( ) You are not allowed to drive a dirty car in Russia.

( ) You are not allowed to flush the toilet after 6 p.m. in an apartment building in Switzerland.

( ) It's illegal to import, sell, or possess chewing gum, even for dental purposes in Singapore.

Unit 5

Great inventions

Towards the end of this unit study, you will be able to:

- talk about different kinds of inventions;
- know some inventions that promote social progress;
- introduce one of your favourite inventions.

If you can improve yourself in a day, do so each day, forever building on improvement.

— The Book of Rites

1 Inventions are great!

1 Which invention do you think is the most important? Tick or write down your answer.

☐ paper	☐ steam engine	☐ internet	☐ bike	☐ plane
☐ printing press	☐ computer	☐ car	☐ phone	☐ light bulb

Other: _____

2 Listen to the conversation and circle the pictures of inventions mentioned.

Ms Liu: Today, let's discuss inventions and their roles in shaping our world. Which invention do you think is the most important?

Li Ming: I believe the invention of paper has greatly influenced the development of human civilization.

Song Hua: How about the telephone? It allows people to communicate with each other easily and quickly.

Wang Mei: The light bulb is also an important invention. It lights up the world.

Li Lin: I think washing machines are helpful inventions, and both electric and gas-powered cars are cool.

Ms Liu: These are all very good examples! Are there any other inventions coming to your mind?

Wang Mei: Computers are very important. People can do so much on a computer.

Li Ming: And don't forget about the internet! It connects people from all over the world and provides us with information, knowledge, and entertainment.

Ms Liu: Absolutely! Computers and the internet have changed our lives. Now, if you could invent something, what would it be?

Song Hua: I would invent a time machine to travel to different periods of history.

Li Lin: That sounds fascinating! I would invent a robot to do chores for me.

Ms Liu: Inventions stem from imagination and creativity. Keep dreaming and coming up with new ideas!

3 Listen to the conversation again and complete the table.

Li Ming	• The invention of paper has greatly _____ the development of human civilization. • The internet _____ people from all over the world and provides us with information, knowledge, and entertainment.
Song Hua	• The telephone allows people to _____ with each other easily and quickly.

2 Ways of travelling

1 Watch the video and answer the questions.

A How many inventions are mentioned in the video?

B Which invention do you think is the most important for you and why?

2 Read the passage and match each part with its main idea.

Long ago, people did not travel far from home. In fact, in the early days, a person might live their whole life in one village and never travel far.

The first important invention in travel was the wheel. And then came the wagons. Humans began to have the power to move and carry things across long distances.

The next was the train. After the train came the invention of cars, buses, trucks, and other means of transportation. Humans and goods were able to travel farther than ever before.

Boats and ships provided another important way of travelling. The invention of the compass helped people explore more places. And canal systems made fast waterway transportation possible.

Modern means of transportation, such as high-speed trains and airplanes, help people travel faster and farther. Eco-friendly electric cars are common and self-driving cars are in development. People can even travel to space in spaceships. Who knows what the future holds?

The development of transportation has made people's travel much easier and faster. Every invention is a symbol of human creativity. Let's enjoy these developments and work for more great things in the future.

Part 1 Paragraph 1	Key inventions of modern transportation
Part 2 Paragraph 2, 3, 4	Situation of travel in the past
Part 3 Paragraph 5	the development of transportation changes people's lives
Part 4 Paragraph 6	road and water transportation development

3 Read and complete the passage.

A. The train allowed more people to travel farther than ever before.
B. People didn't travel far from home.
C. High-speed trains help people travel faster and farther.
D. People could move across long distances.

When I was young, most of the people used bicycles to travel. _____ If I wanted to go somewhere farther, I still had to walk or cycle.

Then came buses. _____ I was excited the first time I took a bus. It was fast and could take me out of the village.

Then I travelled to our capital city by train! _____ In the early 1990s, it took me half a day to go to Beijing by train from Shijiazhuang. But now the high-speed trains only take about one hour.

_____

If you ask me what has changed my life, that's a good example.

4 What transportation do you think will appear in the future? Share your ideas with your partner.

3 Computers and the internet

1 What do you like to do on the computer? Tick and talk with your partner.

☐ Take an online course. ☐ Chat with friends. ☐ Send or receive emails.
☐ Do homework search. Other: _____

2 Read the conversation and answer the questions.

Jenny wants to do her homework on the computer. But her mum is using it.

Jenny: Mum, is it okay if I use the computer now?

Mum: Okay. I just finished my work, so it's all yours. Jenny, you're so lucky to have a computer.

Jenny: Yes, I am. As it's connected to the internet, it has made study and research much easier.

Mum: This technology helps students a lot with their homework. But when I was a student, computers were not widely used. And the internet was not as convenient as it is now. I couldn't imagine having such a convenient tool for getting the job done.

Jenny: Mum, how was homework done in those days?

Mum: Well, everything was written by hand on paper. When I didn't know how to spell a word, I had to look it up in a printed dictionary. When I needed to do any research, I had to go to the library.

Jenny: But now with the internet we can simply search for everything online. And there's always new technology, like AI.

Mum: Yes, and you can easily find definitions and examples for any word. The internet and the computer are amazing inventions with many applications.

Jenny: I agree with you on that, Mum.

A What does Jenny want to do on the computer?

B How did Jenny's mum do homework when she was a student?

3 Read the sentences, pay attention to the parts in yellow and complete the passage.

- But when I was a student, computers were not widely used.
- Everything was written by hand on paper.

When we use the passive voice to say a past thing, we use *was/were+v-ed*.

Yesterday, I found an old book. It was on the top of the shelf. It _____ (cover) by some newspapers. The book _____ (write) by a famous writer. I opened the book and soon I _____ (attract) by a photo in it. It was a photo of my grandfather. Now, many photos _____ (take) on mobile phones. Looking at the old photo, I _____ (bring) back to the time I spent with my grandfather during my childhood.

4 Read and complete the conversation.

Mr Green: What do you think of the internet?

Jenny: _____

Danny: I agree with you. Some of the advantages are indeed wonderful.

Mr Green: You're right. The internet is used everywhere. _____

Jenny: I like to find information about sports and technology.

Danny: I like chatting with my friends online. _____

Brian: I like doing research for my homework. There is so much information. _____

Mr Green: Exactly, the internet helps us a lot, but it also has many disadvantages...

A. How does it help you?
B. It's important for us to tell the good from the bad.
C. I think the world was changed by the internet.
D. The internet is a bridge between us.

4 Thank you, Mr Pasteur!

1 Read the questions and give your answers.

A Do you drink milk every day? Why?

B Do you know how the milk we drink is processed?

2 Read the passage and answer the questions.

While pouring a glass of milk, Jeremy notices something written on the package.

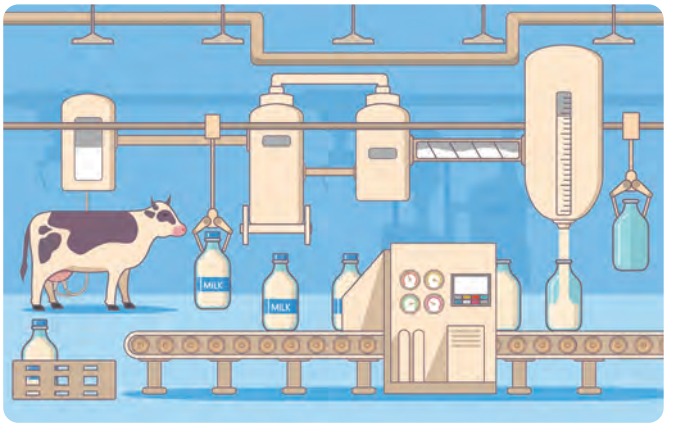

Jeremy: Hey, Mum! I just noticed a big word on the carton. PASTEURIZED. What does it mean?

Mum: Well, if something is pasteurized, it means that it has gone through a process of heating to a certain temperature.

Jeremy: Why do we heat milk?

Mum: Raw milk has dangerous bacteria and germs. We must heat milk to 72 degrees Celsius for 15 seconds to kill them.

Jeremy: How did people discover that?

Mum: Many years ago, people sometimes got sick when they drank milk. Some of them even died because of the bad bacteria.

Jeremy: Wow! Who discovered this heating process? A dairy farmer or a scientist?

Mum: It was Louis Pasteur, a French microbiologist. He discovered the process around 1864.

Jeremy: That's a long time ago!

Mum: (*She nods and adds.*) Mr Pasteur was one of the greatest scientists. His work saved millions of lives around the world. He was famous for his work on germs.

Jeremy: (*He raises his glass of milk in the air.*) Well, here's a toast to you, Mr Pasteur. Thank you for making the world much safer.

A According to the passage, what does the word "PASTEURIZED" mean?

B How did people know their milk needed to be heated?

C How did Louis Pasteur's work make the world safer?

3 Read the passage again and complete the paragraph with the correct forms of the words.

invent	get	solve	heat	kill

Pasteurization is a process that keeps milk safe from harmful bacteria by heating it. In the past, people sometimes _____ sick or even died after drinking milk. To _____ this problem, Pasteur _____ the process of pasteurization around 1864. He _____ the milk to 72 degrees Celsius and kept it at that temperature for 15 seconds. Harmful bacteria and germs in the milk _____, and the milk became safer to drink.

4 Work in pairs. Discuss the following questions and take notes.

What's your favourite invention?	Who invented it?	How did it change our lives?

5 Write a passage to introduce an invention.

5 Refrigerator timeline

Project

1 **Read the timeline and tick the inventor of the first refrigerator.**

☐ William Cullen ☐ Oliver Evans ☐ Fred W. Wolf

2 Read the timeline again and circle the correct answers.

A When did refrigerators become popular in homes?

a. In the 1920s.

b. In the 1800s.

c. In the 1980s.

B What is the current state of using refrigerators?

a. A refrigerator is considered a luxury item.

b. The running cost of a refrigerator is so high that no one can afford it.

c. Energy efficient refrigerators have become the new normal.

3 Work in groups. Make a timeline together for an invention.

A Discuss and choose an invention.

- Search the internet, check out books from the library, or visit a museum related to your topic.
- Choose an invention and share the information you have gathered.
- Make a list of events about that invention.

B Creating a framework

- Draw your timeline.
- Choose a start and end point.
- Put the most important dates on the timeline.

C Filling in your timeline

- Add details and important information about each event.
- Write clearly and concisely.
- Add pictures.

4 Use the timeline to introduce the invention to your class.

Understanding cultures

Great inventions of ancient China

1 Read the passage and answer the questions.

We all know the most significant inventions of ancient China — paper-making, printing, gunpowder, and compasses. However, Chinese people also made many other fascinating inventions.

Have you used the abacus? It was invented in China over 2,500 years ago. It became the primary tool used by merchants and bankers to calculate.

Tofu originated in China. It is a good source of protein. Tofu is rich in minerals that are important for building strong bones and reducing the risk of some diseases. It has been an important part of Chinese cuisine for over 2,000 years and is now enjoyed worldwide.

Tea making is another invention from China. It is said that Shennong, an ancient Chinese emperor, discovered tea when a tea leaf accidentally fell into a pot of boiling water. Today, tea is popular all over the world.

The origins of porcelain can be traced back to the Han Dynasty in China. Porcelain quickly spread throughout China and reached other parts of the world.

Silk is another important Chinese invention. It is made from the cocoons of silkworms. The Silk Road was named after this valuable product.

The Chinese inventions witnessed the brilliance of ancient Chinese scientists, inventors, and thinkers. Although hundreds of years have passed, these inventions continue to inspire and shape modern science and technology.

A Who discovered tea according to the passage?

B There is another name for porcelain. What is it?

C How many inventions of ancient China are mentioned in this passage?

2 Read the passage again and fill in the blanks.

A Abacus has a history dating back about _____ years. It once was the primary _____ used by merchants and bankers to calculate.

B Tofu is a good _____ of protein and is _____ in minerals that are important for people's health.

C Tea was discovered by _____, an ancient Chinese emperor when a tea leaf _____ fell into a pot of boiling water.

D Porcelain was _____ in the Han Dynasty and then became one of China's most famous exports.

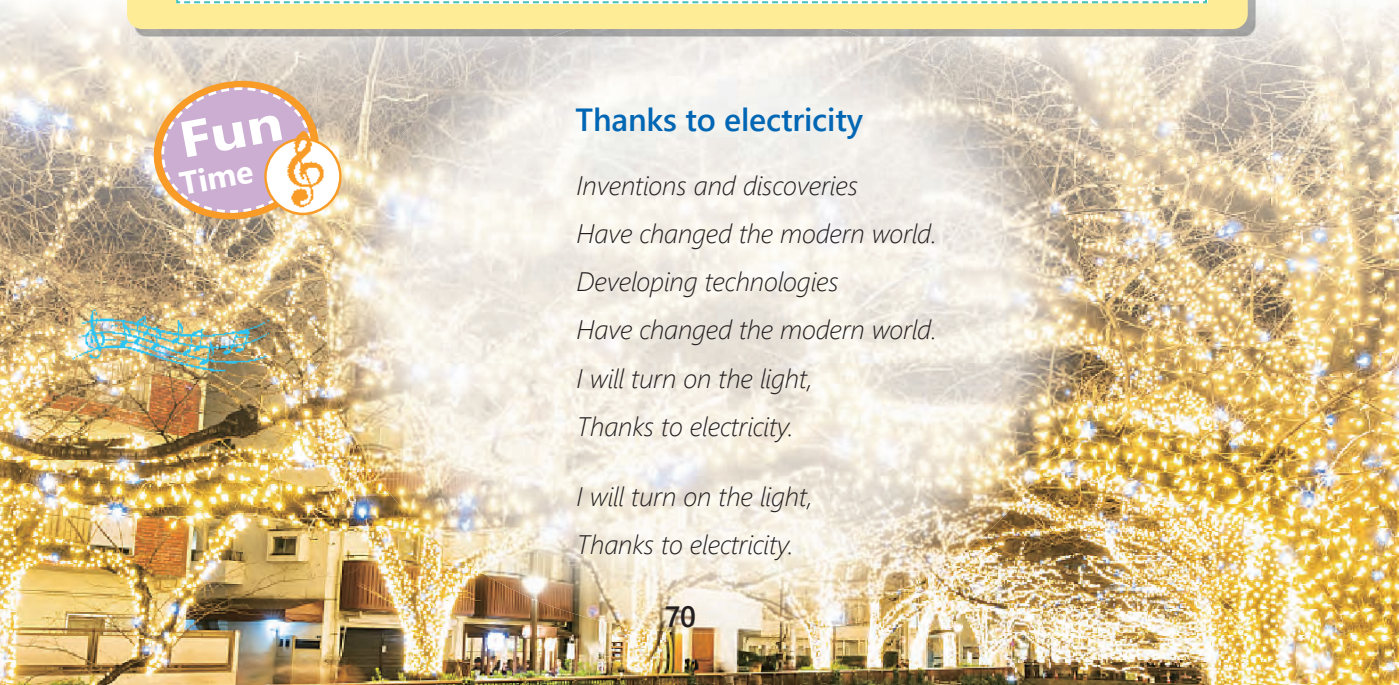

E Silk is made from the cocoons of _____ and the Silk Road was named after it.

3 There are many great inventions and innovations around the globe. Complete the table and talk with your partner.

Unit 6

I love literature!

Towards the end of this unit study, you will be able to:

- talk about different types of literature;
- talk about fables and their morals;
- try writing simple poems.

Poetry is when an emotion has found its thought and the thought has found words.

—Robert Frost

1 Exploring literature

1 What type of literature do you like to read? Tick or write down your answers.

☐ fable ☐ play ☐ poetry ☐ short story ☐ novel

Other: _____

2 Listen to the conversation and answer the questions.

Li Ming and Jenny are chatting online.

Jenny: Hey, Li Ming. We're learning about different types of literature in our English class this week. So far, we have read fables and fairy tales.

Li Ming: Oh, fables! I really enjoy them. They're short but meaningful.

Jenny: Exactly. I think fables are rich in morals. One of my favourites is *The Fox and the Grapes*. Have you heard of it?

Li Ming: Yes! It's a good one. I also like science fiction. Have you ever read the novel *Twenty Thousand Leagues Under the Sea*? I'm just a quarter of the way into it.

Jenny: Yes, I love it. Jules G. Verne takes us on an exciting underwater adventure full of discoveries. Yesterday, I just finished reading *The Gift of the Magi* by O. Henry.

Li Ming: Ah, I am familiar with that short story too. In my Chinese class, we're reading ancient Chinese poems by great poets like Li Bai and Du Fu. They wrote hundreds of amazing poems.

Jenny: That sounds fascinating! I remember Brian is interested in writing poems. Perhaps you could discuss poetry with him one day.

Li Ming: Really? I hope he enjoys Chinese poems and finds inspiration in them.

Jenny: I bet he does! Literature has so much to offer, and it can open new worlds for us. Let's continue learning and exploring its wonders together!

A What types of literature has Jenny learned about in her English class?

B Why does Li Ming enjoy fables?

C What type of literature is *The Gift of the Magi* by O. Henry?

3 Listen to the dialogue and tick the correct answers.

Li Ming and Jack are talking about books.

A Where does the dialogue take place?

☐ In a restaurant. ☐ In a school. ☐ In a bookstore.

B What's the main idea of the book *Heart*? It tells a story about _____.

☐ a boy's life ☐ a girl's life ☐ Jack himself

C What kind of books does Li Ming like? He likes _____.

☐ fairy tales ☐ science fictions ☐ adventures

4 Interview your classmates about literature and fill in the table.

A: What type of literature do you like?

B: I like to read novels/fables/poems...

2 The woodcutter fable

1 Do you like reading fables? What fables have you read? What have you learned from them? Talk about them with your partner.

2 Read the fable and write true (T) or false (F).

Long ago, there was a kind and honest woodcutter.

One day, when he was cutting wood beside a lake, he lost his axe in the water. The water was deep, and he could not get his axe back. He had only one axe, and he needed it to make a living. He sat down and began to cry. As he cried, a fairy appeared. She asked the man what was wrong.

She listened to the woodcutter and felt sorry for him. But what could she do to help? Suddenly, she came up with a great idea. The fairy jumped into the lake and brought back a golden axe.

"Is this the axe you lost?" asked the good fairy. The man looked at the golden axe and shook his head. He told the fairy it wasn't his. The fairy jumped into the water again and brought back a silver axe. Once again, the man said that none of the axes were his.

The fairy went down a third time and returned with the woodcutter's old axe. "That's the right one!" said the woodcutter.

The fairy was so happy with the woodcutter's honesty that she gave him the other two axes as a present.

Honesty truly is the best policy.

A The woodcutter lost his axe on his way to the lake. ( )

B The fairy jumped into the lake four times to look for the axe. ( )

C The moral of this fable is to be honest. ( )

3 Read the fable again and put the sentences in order. Then retell the story.

A The fairy brought a golden axe and the woodcutter shook his head.

B A fairy appeared and came up with an idea.

C The fairy gave him the other two axes.

D The woodcutter lost his axe and began to cry.

E The fairy brought a silver axe and the woodcutter said it was not his.

F The fairy returned with an old axe and the woodcutter said it was the right one.

4 Read and complete the passage with the correct forms of the phrases.

come up with　make a living　shake one's head　be happy with

One day, a woodcutter lost his only axe. He needed it to _____. A fairy saw the crying woodcutter and _____ an idea. She jumped into the water to look for the axe. The fairy brought back a golden axe and then a silver one, but the woodcutter _____. Not until the fairy found his old axe did the woodcutter nod. The fairy _____ the woodcutter's honesty and gave him the other two axes as a gift.

This story continues to be a timeless lesson for us, teaching us the importance of honesty.

5 Match the titles with the keywords. Choose one of the stories and retell it.

The Farmer and the Snake	race, laugh at, catch up, have a rest
The Fox and the Grapes	lose a horse, fall, good thing, bad thing
Saiwong and His Lost Horse	hungry, pick, sour, grapes
The Hare and the Tortoise	frozen snake, pick it up, kill, regret

3 The Giant

1 Look at the picture on this page. Predict what the story is about.

2 Read the story and tick the reason why spring came late to the Giant's garden.

Once upon a time, there was a big, beautiful garden in front of a large, empty house. Its grass was soft and green. Its trees were filled with singing birds. Every afternoon after school, children would play in the garden. They ran in the grass and climbed the trees. They loved to listen to the singing of the birds. They felt that they were in a wonderland.

One day, the children were playing in the garden when a giant appeared. "What are you doing here?" The giant got mad and yelled in a deep voice. "This is my garden! You must leave immediately!" The children were frightened and ran away.

The next day, the giant built a high wall around his garden and put up a notice: DO NOT ENTER! The poor children dared not come again. The giant was always in his house, watching.

Summer turned to fall and fall turned to winter. When spring came, the giant noticed that flowers blossomed and birds began to sing across the land. But in his garden, it was still winter. The green grass was covered with snow and the cold winds kept the birds away. "I don't understand why spring is so late coming to my garden this year," said the giant. He felt sad when he looked through the window at his frozen, white garden.

One morning when the giant was lying awake in his bed, he heard lovely music coming through the window. He thought it must be the king's musicians passing by. "Perhaps spring has come at last," he said when he jumped out of bed and looked outside.

☐ Because it was cold this winter. ☐ Because the giant was selfish.
☐ Because the children picked all the flowers.

3 Read the sentences and pay attention to the parts in yellow. Then match the parts in the left with those in the right.

- They felt that they were in a wonderland.
- I don't understand why spring is so late coming to my garden this year.

An object clause functions as the direct object of a verb or the object of a preposition within a sentence. It provides information about what the subject of the main clause is doing or experiencing.

The doctor insists	what gift was inside.
The kid opened the box to see	why he looked sad that day.
I don't believe	what you said.
I asked Tom	that my father should have an operation.

4 Read and fill in the blanks with *that*, *why*, or *what*.

This story is about a giant. He had a big garden. One day, the giant saw _____ some children were playing in the garden. He shouted at them angrily. The children didn't know _____ the giant drove them out. They felt frightened and ran away quickly. Spring came and flowers blossomed. The giant didn't understand _____ his garden was still covered with snow. He didn't know _____ he should do. He felt sad. One morning, he heard some lovely music. He thought _____ it must be the king's musicians. So he jumped out of bed to see _____ was happening.

5 Work in pairs and talk about what would happen next in the story. You can also read the rest of the story on page 135.

4 Writing a poem

1 Read the questions and give your answers.

A Do you like poems? Why or why not?

B What's your favourite poem?

2 Read Brian's diary and answer the questions.

Dear Diary,

This week in class, we learned to write stories and poems. We read different kinds of poems, fables, and fairy tales. I think poems are more interesting than stories because they use creative forms and a small number of words to express strong feelings. During our class, we read a beautiful Chinese poem called *Thoughts on a Tranquil Night* by the poet Li Bai. This poem is about missing home and it painted clear pictures in my mind. Here's the poem:

Before my bed a pool of light —
Or can it be hoar-frost on the ground?
Looking up, I find the moon bright;
Bowing, in homesickness I'm drowned.

After learning about this special poem, my teacher encouraged us to try writing our own poems. At first, I tried to write about my favourite spot by the lake, but it was challenging. Instead, I wrote a poem about the months. Here it is:

In April, come he will,
In May, sing all day,
In June, change his tune,
In July, prepare to fly,
In August, go he must!

Writing poems can be challenging, and you should weigh your words, but it's also lots of fun. I enjoy expressing my thoughts and feelings through words. I can't wait to learn more about poetry in our next class!

Brian

A What did Brian learn in his class this week?

B What does the poem *Thoughts on Tranquil Night* express?

C Does Brian like writing poems?

3 Match the words that have a rhyming relationship. An example is given.

cat	shoe	that
goat	three	tree
kangaroo	socks	air
fox	pear	box
bear	coat	zoo
free	blouse	boat
mouse	hat	house

4 Complete this poem. You can use the words from Activity 3.

I once saw a very _____ (big/small) _____,

It was _____ (wear/eat) a _____ (big/small) _____ (colour) _____.

I jumped really high, and then I said quietly,

Don't you think you look funny _____ _____?

Cat

I once saw a very small cat,

It was wearing a big yellow hat.

I jumped really high, and then I said quietly,

Don't you think you look funny in that?

5 Create your own poem. Share it with your classmates.

5 | One thousand dollars

Project

1 Read the play and give each scene a title.

Narrator: A young man's uncle leaves him one thousand dollars in his will. What will the young man do with it?

Scene 1 _____

In Tolman's office, Mr Tolman, a lawyer, has just finished reading Gillian's uncle's will.

Tolman: Well, there you are. Your uncle wrote his will two months before he died, and now I've read it to you. What do you think?

Gillian: (*Laughing*) It's not going to be easy to spend a thousand dollars.

Tolman: After spending this cash, you must tell me in writing how you spent it. Will you do that?

Gillian: Yes, I'll do it.

Tolman: (*Giving Gillian a packet*) Here's the money, one thousand dollars.

Narrator: Gillian knows that the uncle's caretaker, Miss Hayden, got just ten dollars. Compared to that, a thousand is a lot. How should Gillian spend his money? He asks several friends, but doesn't find the answer. Finally, he decides to return to his uncle's house.

Scene 2 _____

In the living room, Miss Hayden is sitting at a table, writing letters. She looks up when Gillian comes in.

Gillian: I've just come from Tolman's. He found a mistake in the will.

Miss Hayden: He did?

Gillian: My dear old uncle left you a thousand dollars, not ten. Tolman asked me to bring it to you. Here it is. (*He puts the packet of money on the table.*)

Miss Hayden: *(Excited)* Oh my! Wow!

Gillian: (*Smiling*) Can I write a note?

Miss Hayden: Of course. (*She gives him a pen and some paper, and leaves. Gillian writes a short note, and then reads it.*)

Gillian: "Paid to the best and dearest woman in the world, one thousand dollars. I hope she will be happy forever."

2 Choose sentences to complete Scene 3 — Secrets in the will.

Mr Tolman is sitting behind his desk when Gillian comes into his office.

Gillian: _____ (*He puts the note on Mr Tolman's desk.*)

Tolman: Mr Gillian, there was something else in your uncle's will. I was told I couldn't see it until you told me in writing how you spent the thousand dollars.

Gillian: Please do.

Tolman: Your uncle wrote that you get another fifty thousand dollars _____. But if you have spent it carelessly or given it away to the wrong people...

Gillian: (*Laughing*) As I usually do!

Tolman: _____ Now, I will read your note and find out...

Gillian quickly takes the note from the desk, then tears the note into pieces and puts it in his pocket.

Gillian: (*Smiling*) It's all right. There's no need to read it. _____ Goodbye, Mr Tolman.

Gillian leaves the office, happily singing a song.

A. I lost the thousand dollars betting on a horse race.

B. if you have used the money to do good for others

C. I've got a note to tell you what I did with the money.

D. Then the fifty thousand dollars must be paid to Miss Hayden.

3 Discuss the questions with your group members and give the play a surprising ending.

- Why did Gillian tear the note into pieces?
- Who will get the fifty thousand dollars?
- Why did Gillian's uncle plan this?
- What is the moral of this play?

Return the jade intact to Zhao

1 Read the passage and answer the questions.

During the Warring States Period, the King of Zhao got an invaluable piece of jade, He Shi Bi. When the King of Qin heard of this, he offered Zhao fifteen cities for the smooth, bright jade. The King of Zhao feared he might get nothing in return. Yet if he refused, Qin might attack Zhao. Lin Xiangru, who was brave and intelligent, was sent to Qin with the jade.

The King of Qin was pleased when he saw the jade, but he did not mention the cities at all. Lin said, "Your Majesty, there is a tiny flaw on the jade. Could I show it to you?" The king handed the jade back to Lin. As soon as Lin got the jade, he stepped back to the pillars in the palace, shouting, "You have no intention of giving us those cities, so I've taken back the jade. If you use force against me, I'll smash my head

and the jade against this pillar."

To save the jade, the King of Qin apologized, and then showed Lin the cities on the map. But Lin did not believe he would turn them over. He ordered one of his men to secretly take the jade back to Zhao. He himself would stay to face the King of Qin. Although the King of Qin was furious, he had no better choice but to set Lin free. Lin Xiangru and the jade returned to Zhao safely.

Culture Tips

This story is from *Shi ji* (Records of the Historian), which was written by Sima Qian. *Shi ji* is the first book to present Chinese history in a series of biographies. It is considered one of the greatest works in Chinese literature.

A Which state did Lin Xiangru come from?

B What does the word "invaluable" mean in Paragraph 1?

C How did Lin Xiangru get the King of Qin to hand the jade back to him?

D Why did Lin order his man to secretly take the jade back to Zhao even after the King of Qin showed him the cities on the map?

2 Read the passage again and complete the notes. Then retell the story with the help of the notes.

Introduction: It is a story of a well-known expression. The story took place during _____.

Main characters: _____

Beginning: The King of Zhao _____

Lin Xiangru _____

Main body: The King of Qin _____

Lin Xiangru _____

The end: Lin Xiangru was set free. He _____ safely.

3 Discuss the following questions with your partner.

Unit 7

The value of money

Towards the end of this unit study, you will be able to:

- understand the value of money;
- adopt a healthy attitude towards money;
- know how to manage and spend money wisely;
- express your opinions on money using defining relative clauses.

Don't think money does everything or you are going to end up doing everything for money.

— Voltaire

1 Money in history

1 What forms of currency do you know? Talk with your partner.

- shells
- stones
- gold coins
- silver coins
- copper coins
- paper money
- digital currency

Other: _____

2 Listen to the conversation and answer the questions.

Wang Mei is at Li Lin's house. Li Lin's grandpa takes a box out from his bedroom.

Wang Mei: Thank you for inviting me over to see your collection, Grandpa Li!

Grandpa: You're welcome! Let's start with these stamps. This one shows that ancient Chinese people used shells as a form of money. Think of the Chinese character " 贩 ".

Li Lin: Oh! It includes a "shell".

Grandpa: These stamps represent different types of ancient Chinese currency. Some ancient money was in the shape of a knife or spade. In 221 BCE, Qinshihuang unified China and introduced round coins with a square hole in the centre. Later on, round coins became the main type of money.

Wang Mei: That's cool! They look really old.

Grandpa: They are indeed very old!

Li Lin: What about paper money?

Grandpa: Paper money has a long history in China. It was first used during the Song Dynasty and made trading much easier.

Wang Mei: Nowadays, we seldom use paper money! We use credit cards and digital currency more and more.

Grandpa: That's right! By learning history, we can understand how things change. Visiting a history museum is a great way to learn more about ancient Chinese currency.

Wang Mei: I agree! Li Lin, let's plan a museum visit soon.

A What does the "shell" in the Chinese character " 贩 " show?

B When was paper money first used in China?

C What are some of the modern methods of payment mentioned?

3 Listen to the passage and write true (T) or false (F).

Pingping and his grandpa are talking about collections.

A Grandpa collects coins from many countries. ( )

B People in the past only used round coins with a square hole. ( )

C Grandpa believes that traditional forms of money will always be valued. ( )

D Pingping thinks it's important to remember our past and traditions. ( )

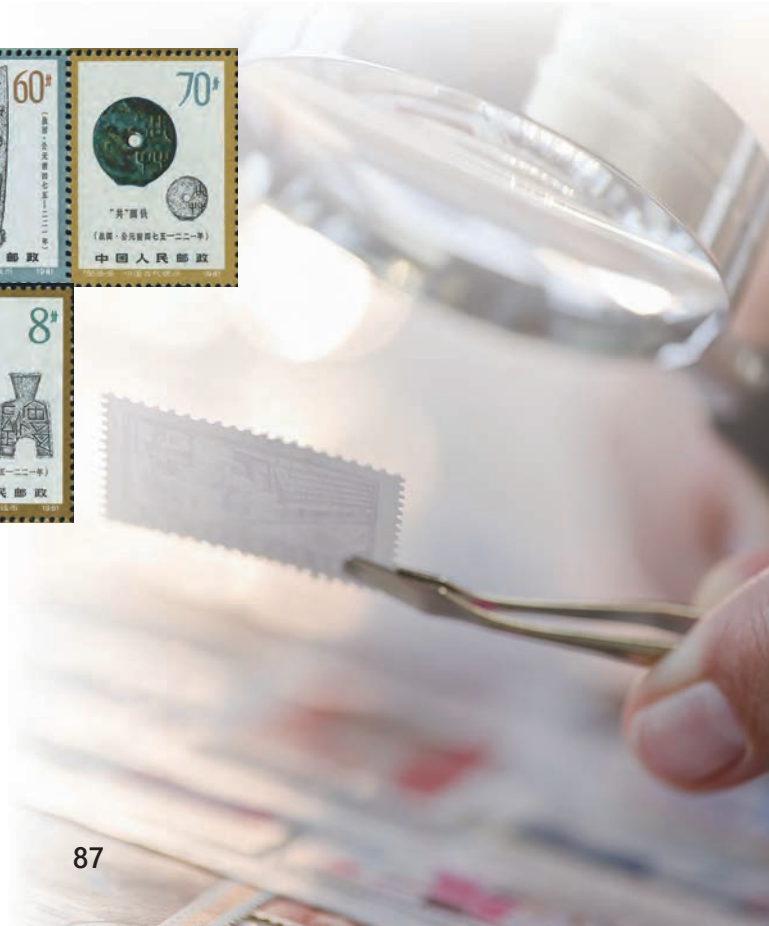

E Learning from the past helps us understand our culture. ( )

4 Work in groups. Discuss the following questions.

A What do you think currency will be like in the future?

B Do you prefer paper money or digital currency?

2 What do you do with money?

1 How do you use your pocket money? Tick and talk with your partner.

- ☐ Save it.
- ☐ Spend it on travelling.
- ☐ Spend it on food.
- ☐ Buy gifts for friends and family.
- ☐ Spend it on books.
- ☐ Donate it to charity.

2 Read the passage and answer the questions.

What do you do with your money? Everyone makes their own choices. Here's a great example of what to do with money.

Ma Xu realised another dream at age 86 by donating 10 million yuan of her life savings to her hometown, Mulan County. The donation was made up of earnings from scientific research and patent transfers.

Ma was born in a doctor's family in Mulan County. She joined the PLA as a doctor in 1947. After many years of hard learning and training, she became China's first female paratrooper in 1961. Ma and her husband put their hearts into research. They have gotten two invention patents and published more than 100 papers. Ma has also developed many traditional Chinese medical prescriptions.

Now, they live a very simple life in a small house in Wuhan. They still use the same hard bed from the 1970s and their sofas are over 50 years old. They usually wear their military uniforms. Ma misses her hometown very much. In 2018, they decided to donate all their savings to Mulan County.

Ma believes that better education can change lives. She is happy to help teenagers in her hometown with her savings. True happiness can be found not in material things, but in the ability to make a difference in the lives of others.

A How did Ma Xu get all the money she donated?

B What are Ma and her husband's great achievements?

C Where does true happiness lie according to Ma?

3 Read the passage again and complete the notes.

Name: Ma Xu Birth place: _____

In 1947: She joined _____.

In 1961: She became _____.

Research achievements: She and her husband got _____ and _____ more than 100 papers. Ma has also _____ many traditional Chinese medical prescriptions.

In 2018: She and her husband decided to _____ all their savings, 10 million yuan, to their hometown.

4 Complete the passage with the correct forms of the phrases.

make a difference make up of be born in put one's heart into

Ma Xu _____ a doctor's family. She joined the PLA as a doctor and then became the first female paratrooper after years of hard training. She and her husband _____ their scientific research and lived a very simple life. In 2018, she made a donation to her hometown which was _____ her earnings from scientific research and patent transfers. The money was used to improve teenagers' education. She has set a great example of what we can do with money. One can find happiness in _____ in others' lives.

5 Work in pairs. Discuss the following questions with your partner.

A What do you think of Ma Xu?

B If you were from Mulan County, what would you say to Ma Xu?

3 Money talks

1 Do you think money is important? Why?

2 Read the conversation and write true (T) or false (F).

Ms Liu: Can anyone tell me what money is and why we use it?

Li Ming: Money is something we use to buy things.

Wang Mei: It's also something we get through work.

Ms Liu: That's right! Money is a medium of exchange. It means we can trade it for goods and services. Just imagine how difficult life would be without money. Do you think money is important?

Li Lin: Yes, it helps us buy the things we need, like food and clothes. Without money, it would be hard to afford those things.

Wang Mei: Exactly. Money also helps us achieve our goals, like going to college or travelling.

Song Hua: And it allows us to help others and make a positive difference in the world.

Ms Liu: I agree with everyone. However, there are many things that are even more valuable than money. Can you give me some examples?

Li Lin: Good health, happiness, and love.

Wang Mei: Family and knowledge.

Li Ming: Peace and friendship.

Ms Liu: Excellent. While money is important, it cannot buy everything. Use money wisely and responsibly. Always be grateful for what you have and share what you can.

A Life would be difficult without money. ( )

B Money can be used to help others and make a positive difference. ( )

C Money should be used wisely and responsibly. ( )

3 Read the sentences and pay attention to the parts in yellow. Then combine the two sentences.

- Money is something (that) we use to buy things.
- There are many things that are even more valuable than money.

An attributive clause describes the noun before it. We use *that/which* to refer to things or people. Sometimes we can use either in the same sentence.

A There are many things. These things are even more valuable than money.
➡ There are many things that are even more valuable than money.

B The book is interesting. I bought the book yesterday on the internet.
➡ _____

C I like the painting. The painting is about a mother and her baby.
➡ _____

D The coin is old. It was made in the Qin Dynasty.
➡ _____

E The pen is on the desk. You want it.
➡ _____

4 Read and complete the passage.

What is money? Money is a medium of exchange _____. It's a special tool _____. If you want to buy a toy, you give some money in exchange for the toy. We can use different forms of money, like coins, bills, or even digital money _____. Money is important because it helps us buy things. But there are some things _____, such as health, family, and friends.

A. that has value	B. that are more important than money
C. that makes trade easier	D. that is on our phones or computers

4 Needs or wants?

1 Read the questions and give your answers.

A Do you often buy things you don't really need?

B What's your reason for buying things?

2 Read the passage and answer the questions.

Emma was excited when she heard about a big sale at a store near her home. Everything was 20% off, and she wanted to go shopping with her mum, Mrs Carson.

Mrs Carson asked Emma what she wanted to buy, but Emma wasn't sure yet. She saw a pretty cotton dress, a nice blouse, and some cool shoes. However, her mum reminded her that she already had enough clothes.

"You already have so many blouses, Emma. I don't think you need any more," Mrs Carson said.

Disappointed, Emma thought for a moment and said, "They used to be very expensive, but now they're cheap..."

Mrs Carson smiled and explained, "It's not just about the price, Emma. We should spend money wisely. Before buying something, we should consider our needs and wants."

Curious to learn more, Emma asked, "What do you mean by needs and wants, Mum?"

Patiently, Mrs Carson explained, "Needs are things that we must have, like food, clothes, and a safe home. Wants, on the other hand, are things that we desire but can live without. It's important to make smart choices with our money."

Emma started to realise how important it was to manage money wisely. By understanding the difference between needs and wants, she knew that she could make better decisions about money.

A What news made Emma excited?

B What is the difference between needs and wants?

C What did Emma learn from the conversation with her mum?

3 How do you think these behaviours should be classified? Tick your answers.

☐ needs	☐ wants	Amy bought a thick coat to fight the cold winter.
☐ needs	☐ wants	Bob bought new shoes though he had four pairs.
☐ needs	☐ wants	Claire filled the car's tank because the gas was running out.
☐ needs	☐ wants	Though his old phone was still usable, he bought a new one.
☐ needs	☐ wants	Emily bought a new dress of the required style for the performance.

4 How can we make smart choices with our money? Match these tips. One choice is extra.

( ) When you see something you want, wait for a day or two before making the decision to buy it.

( ) Decide how much money you can use for things you don't really need.

( ) This helps you stay focused and prevents you from getting tempted by things you don't really need.

A. Plan how much you can spend.	B. Make a savings plan.
C. Make a shopping list.	D. Think before you buy.

5 Write about an experience of unreasonable spending from you or someone you know.

The following questions may help you:

A What is the unreasonable spending?

B Why do you think this spending happened?

C What did you learn from this experience?

5 Managing your money

1 Read the story and talk about its main idea.

Mary and her cousins would go every month for a big family meal at their grandparents' house. Their grandfather often gave them a few coins, saying, "You can buy yourself something." Then all of them ran off to spend the money. The grandparents, aunts, uncles, and parents thought this was not good — the children would never learn to manage their pocket money. So they decided to have a test. They wanted to see what the children could get with the coins within a year.

Tom, the smallest kid, spent all his money on sweets.

Jim was strong-willed. He wanted to win the test. He saved every cent. He was the clear winner.

Then there was Mary. She loved the violin, but the family couldn't pay for her violin lessons. So Mary went to her neighbour, a violinist. Mary offered him all the coins, asking the violinist to teach her how to play. It wasn't much money, but seeing Mary's excitement, the violinist agreed. He taught her happily for months. Later, the two played together in the park. They were very successful, and Mary was able to buy her own violin. Years later, Mary became a very famous violinist.

2 Read the story again and fill in the table.

Name			
How to use the coins			

3 Work in groups of three. How do you manage your money? Discuss and complete your budget table.

Step 1: How much do you spend a week to live a normal life? In your group, discuss and write down the amount of money you three spent last week as your group's average budget.

Your average budget: _____

Step 2: Now make a new budget of your group by referring to the number above, and see how much you can possibly save.

Here are some requirements:

- Write down how much you would spend on food, activities, and other things;
- You must eat three meals a day;
- Whatever is left over can go to your savings;
- Your budget should be reasonable.

Your budget table

4 Present the budget table to the class and give reasons why you planned this way. What do you want to do with the savings?

Money: A fair medium of exchange

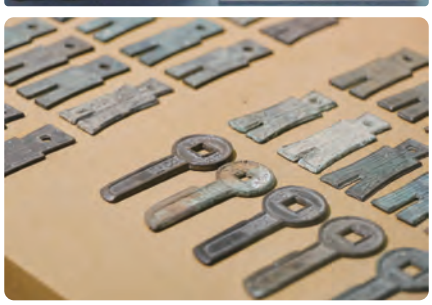

1 Read the passage and fill in the blanks.

From ancient times when a cow could be traded for a horse, to the 21st century when that same horse might easily be bought with a bank card, humans have always needed a way to buy and sell things at an agreed price.

A system, like trading a cow for a horse, is called a barter system. It worked well for a long time. However, things became more complicated as the population rose. The daily life in such a world required a standard unit to measure the value of one thing against another. The era of money soon followed. And it has been with us ever since. Chinese people were the first to move from the bartering era to the money era. They began to trade shells for the products they wanted as early as 3,000 years ago.

Hundreds of years later, the Chinese began to use copper and bronze to replace the shells. According to research, the world's first paper money, *jiaozi*, appeared in Chengdu in 1023.

In ancient Europe, around the 6th or 5th century BCE, money coins came into use. Unlike the Chinese, Europeans used precious metals such as gold and silver for their coins. Around the 17th century, paper money started to become more popular in Europe, because it was much easier to carry around and store.

This system worked until the early 19th century when the Bank of England introduced "gold-backed" paper money. If someone had this paper money, they could exchange it for a certain amount of gold or silver in the bank. This made people feel more secure because the paper money was connected to something valuable.

Bartering era: trading a cow for a horse

About _____ years ago, the Chinese began to trade shells for products.

Hundreds of years later, the Chinese began to use copper and bronze to _____ the shells.

In _____, China introduced paper money called *jiaozi*.

Europeans used _____ or _____ for their coins.

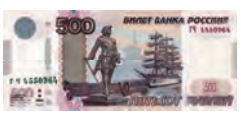

Around _____, paper money became popular in Europe because it was easy to carry around and store.

In the early 19th century, "_____" paper money was born.

2 Read the passage again and discuss the questions.

A What historical changes has money experienced?
B What was the driving force behind such changes?
C What do you think is the future of money?

3 Match the name of the currency with its picture. What other forms of money do you know?

Euro | American dollar | Rouble | RMB | Canadian dollar

Unit 8

Natural disasters

Towards the end of this unit study, you will be able to:

- talk about different types of natural disasters;
- understand the impact of natural disasters;
- know how to keep safe in case of natural disasters.

We cannot stop natural disasters but we can arm ourselves with knowledge.
— Petra Nemcova

1 Disaster safety tips

1 Do you know these natural disasters? Match the pictures with the words.

A flood
B typhoon
C volcanic eruption
D earthquake
E drought
F wildfire

2 Listen to the conversation and complete the table.

Mr Green: Class, what do you know about natural disasters like earthquakes, typhoons, floods, and wildfires?

Jenny: They are very powerful and dangerous.

Mr Green: That's right. When it comes to earthquakes, what should people do to stay safe?

Brian: If an earthquake happens, we should stay calm and quickly find shelter to protect ourselves from falling objects.

Mr Green: Great advice! And what about typhoons? How can we prepare for them?

Peter: For typhoons, we should stay indoors, away from windows and from any dangerous objects outside. We should shut all windows and doors.

Mr Green: Good points. Now, let's talk about floods. What actions should we take during a flood?

Tom: We should go to higher ground. Never try to walk or drive through flood waters. They can be dangerous.

Mr Green: Absolutely. Finally, let's discuss wildfires. They can be started by humans or lightning. What should we do if we see a wildfire?

Mary: If there is a wildfire nearby, we should do what authorities advise and get away if necessary. We should try not to breathe in the smoke. It can hurt our throats and lungs.

Mr Green: Those are helpful tips for staying safe during natural disasters. It's important to be prepared and know how to protect ourselves.

Natural disasters	Tips for dealing with disasters

3 Listen to the dialogue and write true (T) or false (F).

Ms Liu is talking about natural disasters with the class.

A Typhoons are huge storms with strong winds and heavy rain. ( )

B Floods may be the result of typhoons. ( )

C Dry weather won't cause wildfires. ( )

4 Work in pairs. Make up a conversation about a natural disaster you experienced or heard about.

A: What natural disaster have you ever experienced or heard about?

B: Well, I once experienced a typhoon in my hometown.

A: Really? What did you do to stay safe?

...

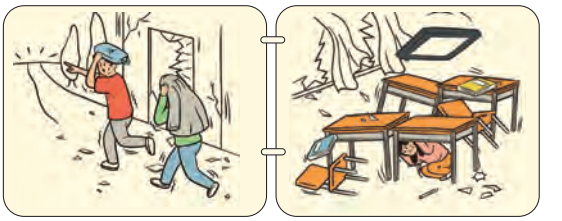

2 Staying safe in an earthquake

1 Read the questions and give your answers.

A What do you think happened in the picture?

B What can you do to stay safe in this situation?

2 Read the passage and underline what you should do if you are in a car or near the sea in an earthquake.

Earthquakes can occur anytime without warning. So it is important to be prepared and know how to protect yourself. What should you do if one happens? Stay calm as the earth begins to shake.

If you are inside when the earthquake starts, get under a table or a bed. You need to have something strong around you to protect you from falling objects. Do not stand near walls or windows. Stay out of the kitchen. Also, never get into a lift during an earthquake.

If you are outside, get to an open area as fast as you can. Stay away from buildings and trees. If you are in a vehicle, pull over to a place far from trees or tall buildings and stay in the car. If you are close to the sea, try to get as far away from the water as possible. Earthquakes can cause huge, dangerous waves that appear rapidly.

When the earthquake is over, there is still plenty of danger. If you see a fire, quickly move outdoors to an open area. Keep an eye out for things that can fall on you. Only make necessary phone calls. Too many calls will bring down the phone system.

Staying calm can improve your chances of survival in an earthquake. It is not easy, but it can save your life.

Learning Tips

An earthquake is a sudden shaking of the ground. It happens because there is movement in the earth's crust.

3 Read the passage again and complete the table.

Stay safe in an earthquake		
Inside	Outside	After the earthquake
_____ a table or a bed. _____ near walls or windows. _____ the kitchen. Never _____ a lift.	_____ an open area as fast as you can. _____ from the buildings and trees. _____ to a safe place if you are in a vehicle. _____ from the water if you are close to the sea.	_____ to an open area if you see a fire. _____ for things that can fall on you. 4 Complete the conversation with the phrases.

stay calm　stay away from　keep an eye out　bring down

Sam: Yesterday, I learned a lot about earthquakes.

Anne: So what is most important?

Sam: _____. It can improve our chances of survival in an earthquake.

Anne: It's true but not easy. What should we do if we are indoors?

Sam: Quickly move to a safe place in the room such as under a strong desk or table.

Anne: What are the tips for outdoor safety?

Sam: Move to an open area. _____ buildings, power lines, and trees.

Anne: Is it safe when the earthquake is over?

Sam: Not exactly. We should _____ for other possible dangers.

Anne: Can we use phones in such situations?

Sam: Only make necessary phone calls. Too many calls will _____ the phone system.

5 What will you do if there is an earthquake while you're at school? Talk with your partner.

3 Secondary disasters

1 Read the questions and give your answers.

A What's a secondary disaster? Give an example.

B How do we get the word "secondary" from "second"?

2 Read the passage and put the sentences in order.

Disasters are terrible. Sometimes, secondary disasters are even more dangerous because they create more damages. Secondary disasters include landslides, fires, floods, and so on. Here is a serious example.

On March 11, 2011, the largest earthquake ever recorded in Japan caused great destruction. Tsunami waves hit the coastal area less than half an hour later. They also destroyed the Fukushima Daiichi nuclear power plant. In the following days, explosions rocked the plant. More than 150,000 people had to leave the area. Lots of radioactivity got into the ocean and came down from the atmosphere.

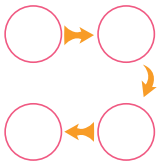

In August, 2023, the Japanese government began to release the radioactive water from the Fukushima plant into the ocean. The water could have a deep impact on sea life and the environment. People living in coastal areas around the world are worried. The radioactive water from the plant is still considered harmful today.

The earthquake highlighted an important problem — disasters often cause a chain reaction, leading to more problems. If people do not deal with them properly, it will lead to greater disasters.

It is everyone's responsibility to take action to reduce disasters or secondary disasters.

A Radioactivity got into the ocean and atmosphere.
B Explosions rocked the plant.
C The largest earthquake in Japan caused serious destruction.
D Tsunami waves hit the coastal area.

3 Read the sentences and pay attention to the parts in yellow.

- Secondary disasters include landslides, fires, floods, and so on.
- The earthquake highlighted an important problem.

Compound words are formed when two or more words are combined. For example, land + slide = landslide, earth + quake = earthquake.
Derived words are created by adding affixes (prefixes or suffixes) to existing words. For example, second + -ary = secondary, harm + ful = harmful.

Then circle more compound words in Activity 2.

4 Read the sentences and fill in the blanks.

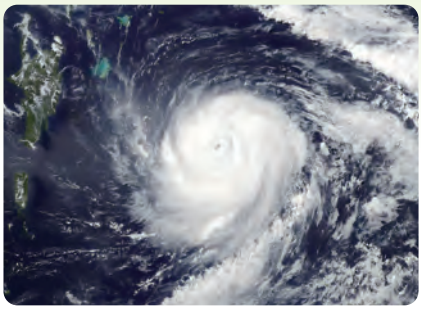

A The second book in the series served as a secondary source of information for my research project. (second)
B I feel very _____ to have escaped the earthquake, and _____, all of my family members were safe, too. (luck)
C Their rich imagination and _____ have inspired the _____ of new products. (create)
D Jimmy likes to use that toothbrush with cute cartoons to brush his teeth.
E The _____ bravely fights against the fire to protect the people.
F The land, including rocks and soil, slides down from the mountain and forms a _____.

4 Natural disasters are dangerous!

1 How dangerous can natural disasters be? Discuss in groups.

2 Read the passage and write true (T) or false (F).

Typhoons are strong storms with powerful winds. They usually occur in the Western North Pacific. Typhoons form when warm water from the ocean meets special wind patterns. Typhoons can bring heavy rain and help cool down hot summers. However, they can be very dangerous and cause a lot of damage. During a typhoon, wind speeds can reach up to 252 kilometres per hour or even higher. This can lead to trees falling, buildings getting damaged, and some areas flooding.

Wildfires are big, out-of-control fires. They happen in natural places like forests and grasslands. They can badly hurt animals, plants, and the environment. They are also dangerous to people living nearby. In 2023, Canada experienced many big forest fires, affecting an area of over 60,000 square kilometres.

Floods are huge amounts of water covering an area. They happen when there's too much rain or when rivers overflow. Floods can hurt a lot of people and destroy farms, buildings, and roads. In China, one of the biggest floods was the 1998 Changjiang River flood. The PLA troops fought against this terrible flood and protected millions of people from drowning. They successfully kept major cities like Wuhan safe.

A Typhoons are small storms that occur in some parts of Asia. ( )

B Wildfires can cause damage to animals, plants, and the environment. ( )

C The 1998 Changjiang River flood in China affected major cities like Wuhan. ( )

3 Read the passage again and complete the table.

Natural disaster	Explanation	Cause	Damage
Typhoon			
Wildfire		humans activities, lightning, etc.	
Flood			

4 What should you do when a natural disaster happens? Think and match the terms with the tips.

Drought	Clear dry leaves and report any smoke immediately.
Typhoon	Save water and use it wisely.
Wildfire	Stay indoors and secure anything that could be blown away.
Flood	Bend down, find a cover, and hold on to protect yourself.
Earthquake	Move to higher ground and never play or swim in these waters.

5 Write a passage about a common natural disaster.

The following questions may help you:

A What is this natural disaster? **B** What causes it?

C What are its dangers? **D** How should you respond if it happens nearby?

5 Let's do an escape drill!

Project

1 Read the passage and answer the questions.

On June 1, 2013, an earthquake hit Ya'an, Sichuan Province. When the building began to shake, a teacher at Fengcun School shouted to his students, "Earthquake! Run!" He opened the door at the same time. All the students bent down, covered their heads with their hands, and quickly left the building from the front door in order. Amazingly, they all made it safely within just seven seconds, without any injuries.

From this incident, we can learn much about how to respond in times of danger.

a Overcome your fears and act quickly. The moment you feel the disaster coming, you should act without thinking twice.

b Work with others. Teamwork increases survival chances. In times of disaster, the best survival strategy for people is usually to follow the group.

c Do escape drills. Disasters can happen at any time. Practice often so you don't have to stop to think during a real emergency.

Remember: survival = calm + will to survive + knowledge of escape

A How did the people at Fengcun School respond when the earthquake struck?

B What are some important factors for people to consider during times of danger?

2 Disasters may endanger our lives. What do you know about these disasters? Search the internet and complete the table.

	Earthquake	Typhoon	Flood
Warning	unusual animal behaviour		
Possible place		in the coastal areas	
Possible time		May to September	June to August

3 Work in groups. Talk about the disasters in Activity 2 and give some suggestions.

A: What is the warning sign before...?

B: ...

A: Where/When does it often happen?

B: ... often happens in...

A: What should we do if...

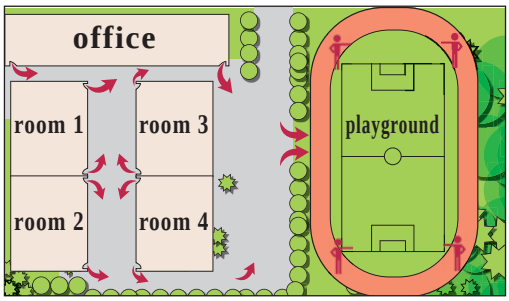

B: First, we should...

Useful expressions

- bend down/cover your head/leave quickly
- stay indoors/climb to high ground
- find floating objects/shout for help...

4 Choose a disaster listed in Activity 2. Discuss and create an escape plan with your group members.

- Mark the doors and windows in your classroom.
- Mark the classrooms, offices, and stairways in your school.
- Think about the direction of escape and design an escape route.
- Write down the main points of escape.
- Mark a safe location for your classmates and teachers to meet up after you escape the classroom.

5 Present your escape plan to the class. Choose the best plan for each situation and conduct an escape drill.

Measures to prevent floods

1 Read the passage and complete the table.

Floods are common natural disasters. They can cause serious damage to homes and crops, and pose a threat to human lives. Many countries take all kinds of measures to prevent floods based on their specific conditions.

The Three Gorges Dam plays a crucial role in preventing floods in China. This dam is located on the Changjiang River and helps control the flow of water during heavy rains. The dam acts as a barrier to hold back excess water and releases it slowly and safely. This makes sure that the areas nearby are protected from the floods. By controlling the water levels, the dam keeps people safe.

The Thames Barrier is an important flood defense system in the UK. It is located on the River Thames with huge gates that can be raised during high tides to protect London from flooding. The barrier has successfully prevented many floods since its completion in 1982, safeguarding the city and its people.

The storm surge barrier in the Netherlands is an important defense mechanism against coastal flooding. This barrier is known as the Delta Project or Delta Works. It is situated in the southwestern part of the country in the province of Zeeland. It aims to protect the low-lying regions of the Netherlands from flooding and to manage the flow of water from the North Sea.

Stay calm

Don't use the lift; take the stairs;
Do not panic and be prepared.
Earthquake, stay calm,
Take cover, don't jump off.
Run outdoors to open ground,
Go quick, don't look around.
If you're trapped, stay calm,
Keep your strength, don't make a sound.
If you're bleeding, press down hard,
Treat your wound with a cotton wrap.
When you hear people, you can shout!
Keep in mind help will come.
Cover your mouth, nose, and head,
Hide your body under a desk.
Don't use the lift; take the stairs;
Do not panic and be prepared.
Keep in mind help will be here!

Grammar

时间状语从句（Adverbial clauses of time）

时间状语从句最常见的引导词是when、while和as，它们都有“当……时候”的意思。

1．when的用法

when引导的时间状语从句的动作既可以和主句的动作同时发生，又可以在主句的动作之前或之后发生。它的谓语动词既可以用延续性动词，也可用非延续性动词。例如：

I learned to plant trees when I visited my uncle last spring.（与主句动作同时）

When the pea plant grows taller, I will give it a shelf to climb on.（在主句动作之前）

2．while的用法

while引导的时间状语从句的动作可以和主句动作同时发生，也可以是在从句动作期间发生主句动作。它的谓语要用延续性动词或状态动词。例如：

We are helping Panda while we are talking.（主、从句动作同时）

His father called while he was out.（从句状态期间发生主句动作）

My mother comes in while I’m doing my homework.（从句动作期间发生主句动作）

3．as的用法

as引导的时间状语从句的动作表示可以和主句动作同时发生，翻译成“一边……一边……”，也可以是二者“一前一后”紧接发生，还可以表示“随着”的含义。例如：

The students took notes as they listened.（主、从句动作同时）

She breaks the cup just as she is running away.（主句动作紧接从句动作）

As we talked on, he got more and more excited.（随着）

注意：

（1）表示主、从句动作同时发生时，as从句通常用一般现在时；while从句可以用一般现在时，也可以用现在进行时。

（2）如果从句动作和主句动作同时发生，并且从句谓语为延续性动词时，when、while、as 可以互换使用。

When/While/As she is making a phone call, I’m writing a letter.

While/When/As I am walking down the street, I notice a police car in front of the bank.

（3）主、从句动作都发生在将来时，when从句谓语通常用一般现在时态。例如：

When you visit the city, you will feel our warmth and friendliness, just like spring!

（4）如果when、while引导的从句的主语与主句主语相同，而从句的谓语又有助动词be时，从句中的主语和be可以省略，但as从句一般不这样用。例如：

I feel free when (I am) in the water.

Pedestrians should walk on the zebra crossings when (they are) crossing the street.

When/While (he is) reading, he falls asleep.

While pouring a glass of milk, Jeremy notices something written on the package.

过去进行时（Past continuous tense)

过去进行时态一般表示在过去某一时刻或某一段时间内正在进行的动作。动作的时间可以用介词短语、副词或从句来表示，也可由上下语境暗示。例如：

I was riding my bicycle by the river around noon.　　My hand and knee were bleeding.

1．过去进行时的构成

过去进行时的构成是“was/were + v-ing”。过去进行时常与表示过去的时间状语连用（当上下文有时间暗示时，也可以省去时间状语）。

2．过去进行时的用法

（1）表示在过去某个时间点正在进行的动作。例如：

What were you doing at 10:00 last night?

The children were playing in the garden when a giant appeared.

（2）表示过去某一时段正在进行的动作。例如：

During that time, I was playing tennis a lot.

They didn’t go to the beach today because it was raining.

现在完成时（Present perfect tense）

1．现在完成时的构成是“have/has + 动词的过去分词”。例如：

The incredible team has won many championships over the years.

2．现在完成时的意义和基本用法

（1）表示动作发生在过去某时，现在已经完成，并对现在的情况产生影响或结果，这种用法可以不用时间状语，也可以与表示不确定过去时间的already、just、yet、recently、before等；表示频度的often、three times、ever、never 等；以及表示包括现在时间的now、just、today、so far、this morning、this month、this year等状语连用。例如：

Ping-pong has already become an important part of our culture.

I have painted six new pictures this week.

（2）表示动作或状态在过去某时开始，持续到现在，可能继续下去，也可能刚结束。一般要用“since + 时间点”、“for + 时间段”、always、now、so far、in the past/last few years、all day等时间状语。例如：

She has taught in the school for ten years.　　So far, we have read fables and fairy tales.

They have known each other since they were children.

My friend has always wanted to go to Beijing with me.

3．现在完成时的句式

肯定句：I have already read the book.　否定句：I haven't read the book yet.

一般疑问句及其回答：

— Have you read the book?

— Yes, I have./Yes, already.　— No, I haven't./No, I have not./No, not yet.

— Has Tom read the book?

— Yes, he has.　— No, he hasn't./No, he has not.

特殊疑问句：

What have you done this week?　What has Tom done this week?

注意：

"have/has been to"与"have/has gone to"的区别：have/has been to的意思是"曾给到过某地，现在不在那儿"；have/has gone to的意思是"去某处了，现在不在这儿"。例如：

They have been to Lanzhou. 他们到过兰州。（现在已不在兰州）

They have gone to Lanzhou. 他们到兰州去了。（现在不在这里）

被动语态（Passive voice）

语态是表示主语和动词之间关系的动词形式。英语动词有主动语态和被动语态两种。主动语态表示主语是施动者；被动语态表示主语是受动者。被动语态由"助动词be + 及物动词的过去分词"构成（be有人称和数的变化）。例如：

People use traffic laws to regulate the behaviour of drivers, pedestrians, and cyclists.（主动语态）

Traffic laws are used to regulate the behaviour of drivers, pedestrians, and cyclists.（被动语态）

被动语态强调动作的承受者，其执行者有时不必提及，如要提及，用"by + 动作执行者"短语。例如：

These dry places are called deserts.　A girl was hit by a car at 15 Park Road.

Were these words written last week?

1．一般现在时的被动语态的构成是"be (am/is/are) + 及物动词过去分词"。助动词be随人称、数的变化而改变。例如：

Cameras and mobile phones are not allowed.

Maintaining more distance is seen as rude.

Closeness is considered normal.

Spoken rules are written somewhere or said officially.

2．一般过去时的被动语态的构成是“was/were +及物动词的过去分词”。例如：

But when I was a student, computers were not widely used.

注意：

1．不及物动词及词组，如happen、rise、die、run out、take place、come out、come true、belong to等无被动语态。例如：

Our Chinese dream will come true.

2．某些可以用well、easily等修饰的不及物动词，如sell、wash、clean、ride、write等，和某些系动词，如 look、sound、smell、taste、feel等，往往用主动形式表示被动意义。例如：

This kind of car sells well.　　This cloth washes easily.

The song sounds good.　　The food tastes sweet.

3．在主动语态中，感官动词或使役动词的宾语补足语使用不带to的动词不定式，但变为被动语态时，须加上to。例如：

He made me read the text three times. →I was made to read the text three times.

I heard her sing. →She was heard to sing.

4．接双宾语的动词变为被动语态，直接宾语（物）作被动语态的主语时，动词后面要用介词，这个介词是由与其搭配的动词决定的。例如：

He gave me a book. →A book was given to me (by him).

He bought me a book. →A book was bought for me (by him).

5．一些短语动词用于被动语态时，短语动词应当看作一个整体，而不能丢掉其中的介词或副词。例如：

We can’t laugh at him. →He can’t be laughed at by us.

宾语从句（Object clauses）

在复合句中作宾语的句子叫作宾语从句。宾语从句分为三类：动词后的宾语从句、介词后的宾语从句和形容词后的宾语从句。

1．动词后的宾语从句

常用的连接代词有that, what, who, which, whose等。例如：

Jingzhe tells us that insects are coming out of hibernation.　Do you know what *Jingzhe* is?

We used a stopwatch to see who was the fastest.　　I don’t know whose fault it was.

常跟连接代词that引导宾语从句的动词有agree、believe、decide、hear、hope、imagine、know、notice、say、see、think、wish等。在口语和非正式文体中，连接代词that可以省略。例如：

I knew (that) growing a plant is not easy because it takes a lot of work.

Ms Liu believes (that) most people want to be honest.

动词后常用的连接副词有how、when、where、why等。例如：

Do you know when we can plant trees?

I don't understand why spring is so late coming to my garden this year.

注意：

宾语从句中，主句的谓语动词是现在时或将来时，从句的谓语动词按句子意思可以用任何时态；主句的谓语动词是过去时态，从句的谓语动词多用过去时态，若从句表示的是客观真理或永久性情况，通常用现在时态。例如：

I know he did not tell you the truth.

Scientists said the earth travels around the sun.

2．形容词后的宾语从句

常用的形容词有sure、glad、sorry、happy、afraid等。例如：

I'm afraid I can't afford it.

This makes sure that areas nearby are protected from the floods.

3．介词后的宾语从句

that引导的从句不可直接作介词的宾语，但疑问词引导的从句却可以。例如：

I'm surprised at what he said.

I walked over to where she sat.

Are you sorry for what you've done?

They are thinking about whether they admit students into the club.

定语从句（Attributive clauses）

在复合句中作定语的从句叫定语从句。被定语从句所修饰的词叫先行词，通常位于定语从句之前。引导定语从句的词是关系代词和关系副词。本册先学习关系代词that和which。一般情况下，that既可以指人又可以指物；which指物。它们可以在从句中作主语、表语或宾语。例如：

She is the woman that sells vegetables.

Food that/which is polluted causes illness.

She is not the girl (that) she was.

This is the storybook (that/which) my father bought yesterday.

1．先行词指物时，在下列情况下，只能用that引导定语从句，不能用which：

（1）当先行词是all、little、much、none、everything、anything、nothing等不定代词时。例如：

Is there anything that you don't understand?

（2）当先行词前面有the only、the very、the last等修饰时。例如：

This is the only book that I can find.

（3）当序数词或形容词最高级修饰先行词时。例如：

This is the best book that I have ever read.

（4）当主句是以特殊疑问词which开头的特殊疑问句时。例如：

Which is the hotel that you like best?

（5）当先行词既有人又有物时。例如：

Let's talk about the people and the things that we can remember.

2．先行词指物时，只能用which引导定语从句的几种情况：

（1）在介词之后。例如：

It was a crisis for which she was totally unprepared.

（2）在非限制性定语从句中。例如：

Heavy rainfall and large rivers in China often cause flooding, which can be quite dangerous.

（3）that、those作主语时。例如：

Those which are on the desk are English books.

构词法（Word formation）：合成和派生（Composition and derivation）

了解英语单词的构成规律，对我们记忆、使用单词都有帮助。合成法和派生法（加前缀、后缀）是很重要的两个英语构词方法。

1．合成词由两个或两个以上的词合并而成，又称为复合词。常见的合成方式如下表：

合成方式

类别	构成方法	例词
复合名词	名词 + 名词 形容词 + 名词 副词 + 名词 名词 + 动词	coastline　basketball highlight　blackboard outdoor　outside landslide　earthquake
复合代词	代词宾格或物主代词 + self (selves) some (any, no) + one (body, thing)	myself　yourself　himself　herself ourselves　themselves something　somebody　someone anything　anybody　anyone nothing　nobody

派生词是指在一个单词的前面或后面加一个词缀而形成的新词。常见的前缀、后缀如下表：

前缀

前缀	构成方法	例词
un-	加在某些形容词前，构成其反义词	happy *adj.*（幸福的）— unhappy *adj.*（不幸福的） important *adj.*（重要的）— unimportant *adj.*（不重要的）
dis-	加在某些动词、形容词或名词前，构成其反义词	appear *v.*（出现）— disappear *v.*（消失） honest *adj.*（诚实的）— dishonest *adj.*（不诚实的） order *n.*（秩序）— disorder *n.*（紊乱）
en-	加在某些名词或形容词前构成及物动词	courage *n.*（勇气）— encourage *v.*（鼓励） large *adj.*（大的）— enlarge *v.*（扩大） rich *adj.*（丰富的）— enrich *v.*（使丰富）

后缀

后缀	构成方法	例词
-ment -ing -er -or -ion -tion	加在某些动词后，构成名词	develop *v.*（发展）— development *n.*（发展） meet *v.*（遇见）— meeting *n.*（会议） teach *v.*（教授）— teacher *n.*（教师） act *v.*（表演）— actor *n.*（演员） discuss *v.*（讨论）— discussion *n.*（讨论） explain *v.*（解释）— explanation *n.*（解释）
-al -ful -y -ly	加在某些名词后，构成形容词	coast *n.*（海岸）— coastal *adj.*（沿海的） harm *n.*（伤害）— harmful *adj.*（有害的） wind *n.*（风）— windy *adj.*（有风的） friend *n.*（朋友）— friendly *adj.*（友好的）
-less	加在某些名词后，构成词义相反的形容词	care *n.*（谨慎）— careless *adj.*（粗心的） home *n.*（家）— homeless *adj.*（无家可归的）
-ness	加在某些形容词后，构成名词	dark *adj.*（黑暗的）— darkness *n.*（黑暗） happy *adj.*（幸福的）— happiness *n.*（幸福）
-ly	加在某些形容词后，构成副词	busy *adj.*（忙的）— busily *adv.*（忙地） clear *adj.*（清楚的）— clearly *adv.*（清楚地）
